NO. 4

## ENORMOUS POWER IN PEACE AND SLAVE RIVERS DISTRICTS MAY BE HARNESSSED IN FUTURE FOR COMMERCIAL PURPOSES

Conservation Commission Report Will Show Descent of 225  
Feet in Less Than Eighteen Miles That Will Give  
Minimum 400,000 Horsepower for Peace  
River Falls May to November

Ottawa, Jan. 6.—During the past two summers the commission of conservation has had its hydro-electric engineer at work gauging streams and examining possible water sites in the Athabasca, Peace River and Slave Lake regions, and a report will be issued very shortly. Two of the rapids thus examined are described:

The Cassette, Mountain, Pelican and Drowned Rapids, collectively known as the Fort Smith Rapids, are situated on the Slave River and extend from Smith Landing to Fort Smith, a distance of some sixteen miles. The various rapids whose descents taken separately vary from 10 to 38 feet, may be considered as a continuous rapid from head to foot broken by short intervals of swift water, giving a total descent in the sixteen miles of some 135 feet.

It would probably be difficult to group all these rapids into one development, although it would be very desirable to do so from the standpoint of conservation. The numerous islands and projecting points from the mainland afford natural conditions for easy development. The volume of water in these rapids is enormous, being the combined flow of the Peace and Athabasca and their tributaries, with one of the great northern lakes, Lake Athabasca, acting as a reservoir to regulate the flow.

The total power available during the

season of navigation (May to November) by utilizing the total head of 135 feet, is estimated at one million horsepower, and is divided among the different rapids in proportion to the head in each. Raw material for pulp and lumber industries is found all along the river and at the rapids.

The Peace River canyon has long been renowned for the wild character of its waters, and no white man or Indian, he ever so experienced in river work or urged on by foolhardiness, ever attempted to run its rapids. Rafts or boats, by carelessness or otherwise, allowed to drift past its upper gates, are never seen again, being engulfed by some of its many powerful whirlpools.

It is little wonder that the velocity of its waters should be so great, when one considers, as has recently been ascertained, that the descent from head to foot is some 225 feet in a distance of less than 15 miles. This immediately suggests its possibilities as a water power development. The total minimum power available during the open water season (May to November) is estimated at 400,000 horsepower.

This is based on the assumption that the total head of 225 feet can be utilized. Its development for waterpower purposes will involve rather intricate problems, but to compensate for this, one must consider its situation near the raw material for pulp and lumber industries. It is also at the head of navigation on the Peace River and by its adjacent to it is immense coal fields, large portions of which have already been staked out.

## URGES PREFERENCE ON CANADIAN WHEAT

TWO SHILLING BOUNTY  
SUGGESTED IN ENGLAND

Sir Joseph Lawrence Would  
Extend Principle to Other  
Commodities

London, Jan. 6.—An important speech pregnant with constructive suggestions for a way out of the Imperial Preference difficulty was made by Sir Joseph Lawrence on Saturday. As a solution Sir Joseph proposes that a preference on wheat be given Canada which should take the form of a two shillings bounty on Colonial wheat, instead of a two shillings tax on foreign wheat, such bounty to be paid out of customs duties collected from foreign manufacturers. Further, he would extend the principle, to meat, butter, cheese and other foodstuffs, utilizing the tax levied upon the foreigner for the use of the home markets. For the encouragement of the dominions to grow corn for British consumption, foreign wheat would come in free. At the same time, Sir Joseph suggested the reduction or abolition, without waiting for any conference or referendum, of the entire duty on tea from our own dependencies like India and Ceylon. Sugar from the West Indies and Mauritius might be admitted free, as well as coffee, raw cocoa and sundry other smaller items making up the total of their other food imports. The cost of these remissions in existing duties would roughly amount to £7,000,000. "We should be justified," continued the speaker, "in dividing the present all round ten per cent. scale into three categories as in some of our dominions, namely, (1) Maximum tariff 15 per cent. ad valorem; (2) intermediate tariff, 10 per cent. ad valorem; (3) minimum tariff, 5 per cent. ad valorem.

## NEW FRONTIER OF TURKEY EXPECTED

OTTOMAN DELEGATES  
WITH FRESH PROPOSALS

Allies Will Agree to Line Along  
Maritza and Tundje; and  
Kirk-Kilisesh

London, Jan. 6.—An important advance has been made by the Turks toward meeting the demands of the Balkan allies, according to the opinion expressed by the representatives of Bulgaria in regard to the new Ottoman proposals as to the future frontier between Bulgaria and Turkey.

The Ottoman delegates were expected to present a definite project during the day's sitting of the peace conference, suggesting that the western frontier of Turkey should follow the course of the rivers Maritza and Tundje, the Turks to retain the fortress of Adrianople, but to abandon Kirk-Kilisesh.

The allies declared that if this proposal was put forward they would consider it sufficient reason for withdrawing their threats to break off negotiations.

The conversations between Dr. S. Danef, the chief of the Bulgarian delegation, and M. Jonef, the Roumanian minister of the interior, have assumed a rather serious character. The Roumanian statesman insists that Roumania must receive immediate satisfaction by the grant of compensation, which was promised in return for her neutrality during the war.

Dr. S. Danef in reply repeated the vague promises already made by him to the Roumanian government during his sojourn at Bucharest before he came to London, but M. Jonef insisted on an explicit answer, and Dr. Danef thereupon telegraphed to the Bulgarian government at Sofia for definite instructions on the subject. The Turkish delegates are indignant at the attitude of the European powers toward the Ottoman Empire. They remark that when the Turks are defeated nothing is done to moderate their enemy's pretensions, but when the Turks are victorious they are always prevented by the powers from reaping the fruits of their efforts. They cited the war of 1897, in which Greece was utterly defeated by Turkey at Domkles, and the army was compelled to withdraw and to conclude an armistice. Five days later, however, a collective note was sent by the European powers to the Porte, in which the conditions of peace were practically drafted and the annexation of Thessaly was prevented, although it had been occupied by the Turkish troops. The payment by Greece of a war indemnity was also stopped by the powers. Thus Turkey gained nothing by her victories in that war but now that Turkey is defeated by the combined armies of Bulgaria, Greece, Montenegro and Serbia, the allies are encouraged by the powers to demand even that which they have never conquered.

Another report was current to-day that Turkey had arranged a loan. London financiers, however, discredited the rumor and said the situation is the same as in December, when Turkey made tentative proposals for the borrowing of a large amount of money, but was told that she must first conclude peace. It is thought that to-day's report was spread for political purposes.

London, Jan. 6.—At the peace conference to-day between the delegates of the Balkan States and Turkey, the Turkish envoys offered to make further concessions which were considered sufficient to prevent the threatened rupture of negotiations. The peace negotiations will be resumed, but the date of the next meeting was not fixed at the conclusion of the day's session.

The official report of to-day's meeting says: "Having examined the new proposals, the Turkish delegates made reply to the declaration of the allies. The latter declared the work of the conference suspended."

The Ottoman delegates presented a long statement in which they spoke of Turkey's earnest desire to reach a settlement, but offered no important concessions. They remained adamant upon the subject of Adrianople.

The delegates of the allies then adjourned to consider the Turkish offer, and upon returning presented a counter statement, adding that as the Turks had not met their terms, they must ask an adjournment without date. The delegates then subsequently emphasized the statement that the negotiations had not been broken off. By "suspending" the sittings of the peace conference the delegates of the allied Balkan nations claim to have left the next movement to the Turks. Retardation, they say, has the alternative of presenting fresh proposals which shall follow closely the demands of the Balkan league, and thus resume the conferences or of adhering to the Turkish claim for the retention of the fortress of Adrianople and rupturing of the negotiations.

London, Jan. 6.—An engagement will shortly be announced, and is of the nature of a romance in the royal household of Rideau Hall. Two of the members of the personal staff of the Duke and Duchess of Connaught, Miss Evelyn Pelly and Captain T. H. Rivers-Bulkeley, C. M. G., M. V. O., squerry and controller of the household, are the central figures.

St. John, N. B., Jan. 6.—It is stated that the extensive oil shale areas in Albert County, held by a syndicate headed by Senator Dymally, have been sold to the British Government.

## FROST BITES CITRUS FRUITS DOWN SOUTH

ICICLES HANG FROM  
LOS ANGELES TREES

Temperature Drops to Twenty-  
Two Degrees and Growers  
Offer Up Prayers

Los Angeles, Cal., Jan. 6.—Freezing weather, such as Southern California has not experienced in 20 years, swept down from Tehachapi Top on the great orange belt of San Bernardino, Ventura, Riverside, Los Angeles, Orange and San Diego counties yesterday. Damage estimated at many millions of dollars is being wrought the citrus fruits, in spite of the desperate efforts of the growers to check the menace by smudging. At Covina the mercury dropped to 22 degrees. At Santa Ana icicles hang from the orange trees. Snow is reported from north of Oxnard. Sugar beets, bean and grain crops are suffering also, but the chief damage is to the oranges and lemons. High winds are blowing at Santa Barbara, Redlands and Colton, which it is hoped will prevent heavy freezing. Reports from the Los Angeles valley say the loss to fruits there will be enormous. At Santa Barbara the temperature has been below the freezing point all day except for two hours yesterday afternoon and at 10 p. m. it was 12 degrees.

At Redlands the mercury stands at 30 and the sky is black with smudges. At Whittier several hundred thousand young orange trees are exposed to the elements and the owners fear a total loss.

For the most part the sudden drop, despite the United States weather bureau's warning, was unexpected and not more than a tenth of the growers. It is reported, were prepared with smudges. The temperature stood at 13 degrees at Riverside at 10 o'clock last night. Prayers were offered in the churches for the saving of the citrus groves.

PACIFIC HIGHWAY IS  
COMMERCIAL MATTER

Seattle, Wash., Jan. 6.—The completion by 1915 of a first-class highway on reasonable grades from the northern boundary of California through Oregon and this state to British Columbia is of more commercial importance to Oregon and Washington than the opening of the Panama canal.

So asserts Henry L. Bowley, executive officer of the Pacific Highway Association, with headquarters at Portland, who is urging that \$20,000 be spent by this state in road-building.

## WINNIPEG RECORDS TRAGEDIES IN SNOW

MRS. GEORGE BIGELOW  
IS FROZEN TO DEATH

Edward Bruce Overcome When  
Temperature is Thirty  
Below Zero

Winnipeg, Man., Jan. 5.—Mrs. George Bigelow, who was only married December 21 last, was found badly frozen, a mile from her home near Reaburn, Man., thirty miles west of here, and died from the effects of exposure. Before her marriage she was Miss Minnie Main, a member of one of the most prominent families of the district.

The hired man saw her putting on a fire in the kitchen just before breakfast. Then she was only partly dressed. When he returned later in the morning no trace of Mrs. Bigelow could be seen, and a search party was organized. After some hours they found her a mile from the house, badly frozen about the legs and arms.

She was thinly clad and died from shock before the doctor arrived. Her husband is in Vancouver at present on a trip. He is an implemment agent and she was preparing to join him at the coast.

Edward Bruce, a well-known native of Manitoba, was found frozen to death on Springfield road, east of the city, to-day. He was running behind a sleigh to keep warm and fell down. Evidently he was stunned and died before being discovered.

The thermometer registered 30 degrees below zero to-night. Severe weather has been experienced all over the Canadian prairies west during the last forty-eight hours, the thermometer having dropped as low as 38 below at Regina, 34 below at Qu'Appelle and Minnedosa, and 30 below here, and at Battleford, Moose Jaw, Medicine Hat and Lethbridge were all well down, just catching the 30 below region, while Swift Current, Calgary and Edmonton only registered 18 below, 16 below and 12 below, respectively. Fine but decidedly cold weather has prevailed all over the Canadian prairies west, the maximum temperature being several degrees below zero. Probabilities are for fine and continued cold.

REBUILD DOMINION ATLANTIC.

Montreal, Jan. 6.—It was officially announced by the C. P. R. to-day that the Dominion Atlantic Railway, which is controlled by the C. P. R., will be practically reconstructed. All along the line the wooden bridges will be replaced by steel structures. The Moose River bridge will be 915 feet in length, a bridge at Windsor is to be 1,000 feet long, and the Brea River bridge to be 1,100 feet with sixteen spans.

## THREE VESSELS ARE LOST AT SAN DIEGO

SIX MEN DROWNED  
OTHERS ARE MISSING

High Wind and Waves Sweep  
Boat on to Point  
of Rocks

San Diego, Cal., Jan. 5.—The greatest marine disaster in the vicinity of San Diego in many years occurred late on Saturday night at Point of Rocks and Imperial Beach, when three small vessels were swept ashore by the high wind and raging sea and dashed to pieces.

The ill-fated craft were the United States immigration inspector's launch Elizabeth, the fishing power boat Old Nick, of San Diego, and an unidentified sloop.

Six men are known to have been drowned, while two, after battling bravely with the surf, succeeded in getting ashore. The total loss of life may not be learned, owing to the fact that the number of occupants of the third vessel, the sloop, is unknown. The seas removed every trace of the wreckage of the sloop, with the exception of the rudder and part of the upperworks.

The known dead are: United States Immigration Inspector Daniel Kuyden; G. Gorland, engineer of the immigration launch Elizabeth; Anton Basil, local fisherman; Clarence Hill, Pacific fleet boatman; Tim Good, engineer of the Old Nick; Pete, a friend of Good.

The known saved are: Frank Stout, partner of Hill, and Nick Demitte, owner of the Old Nick.

The scene of the wrecks is about 15 miles from this city. The sloop was wrecked about a mile north of the other craft, and is supposed to have had a crew of at least three men. It is probable these were lost, in addition to the six known to have perished.

## RIDEAU HALL HOLDS A NEW YEAR ROMANCE

Ottawa, Jan. 5.—An engagement will shortly be announced, and is of the nature of a romance in the royal household of Rideau Hall. Two of the members of the personal staff of the Duke and Duchess of Connaught, Miss Evelyn Pelly and Captain T. H. Rivers-Bulkeley, C. M. G., M. V. O., squerry and controller of the household, are the central figures.

OIL SHALE AREA SALE.

St. John, N. B., Jan. 6.—It is stated that the extensive oil shale areas in Albert County, held by a syndicate headed by Senator Dymally, have been sold to the British Government.

## HON. LEWIS HARCOURT, M. P., SAYS AN IMPERIAL DEFENCE COMMITTEE WOULD BE ADVISORY BODY ONLY

PREMIER ASQUITH, who, in conference with the Colonial Secretary and Premier Borden at London last summer, informed the Canadian Prime Minister that the overseas Dominions could not be allowed to have a voice in determining the foreign policy of the Empire.

## GERMAN NEWSPAPERS WARNING THE PEOPLE NOT TO FORGET GOD

Berlin, Jan. 6.—Germans seem to be impressed with the idea that 1912 will be a year of fate for this country. This is evidenced throughout the press editorials and reviews in which there are numerous articles warning people not to forget God, lest a great catastrophe should recall them to their duty. There is hardly an optimistic note sounded in the reviews of the new year.

## NOTED ASTRONOMER IS DEAD AT NINETY-TWO

Marathon, N. Y., Jan. 6.—Dr. Lewis Swift, astronomer, died of apoplexy yesterday at the home of his daughter here. He was regarded as among the greatest astronomical discoverers of the nineteenth century. He discovered 300 nebulae, 18 comets and received nine medals. Dr. Swift, who had been blind for the last few years, was born at Clarkson, N. Y., February 28, 1820, was ninety-two years of age and had only twenty birthday anniversaries. He was educated at Clarkson Academy.

## TO BRING HON. ROBERT ROGERS' CONDUCT BEFORE GOVERNOR - GENERAL - IN COUNCIL

Resolution Before Saskatchewan  
Legislature To-morrow  
Dealing With Minister

Regina, Sask., Jan. 5.—Saturday was no holiday for the Saskatchewan legislature; morning, afternoon and evening sittings keeping the legislature busily engaged throughout the day.

Hon. J. A. Calder gave notice that he would on Tuesday introduce a resolution rectifying attempts made by the Saskatchewan government to secure the restoration of the public domain, and referring to the statements in the Regina Province by Hon. Dr. Roche

regarding the elections of last July, which, the resolution states, were of such a grave character as to demand that they be brought to the attention of His Royal Highness, the governor-general-in-council.

Failing to secure any response from Hon. Robert Rogers of the invitation to appear before the select committee of the House to substantiate the charges made by him in Montreal with respect to the Saskatchewan elections, Hon. E. A. Tupper will to-morrow introduce a resolution, which after rectifying the charges made by Mr. Rogers, will express regret at the conduct of Mr. Rogers, and advise that the government of Saskatchewan take steps to call the attention of His Royal Highness, the governor-general-in-council to the conduct of the federal minister.

## DROPS DOWN BELOW THROUGHOUT OREGON

Portland, Ore., Jan. 6.—Oregon temperatures last night and this morning ranged from 40 below to 25 above. The coldest was at Kamela, at the summit of the Blue mountains in Union county. The 25 above is at Portland at noon to-day.

Other temperatures early this morning were: Enterprise, Walla Walla county, 20 below; LaGrande, 9 below; Pendleton, 4 above in Eastern Oregon; and in Western Oregon: Rossburg, 17 above; Albany, 17 above; Grant's Pass, 13 above; Medford, 19 above; Salem, 22 above; Eugene, 20 above.

GENERAL DRURY DEAD.

Montreal, Jan. 6.—Death came suddenly to General C. E. Drury, of the Canadian Militia Department. He came to this city about a week ago to visit George Porteous, residing on McTavish street, and it was while enjoying this holiday that he took sick and died.

## BAD WEATHER STRIKES WHOLE CONTINENT CALIFORNIA SUFFERING WITH A DROP TO 16

Salt Lake City, Utah, Jan. 6.—The thermometer registered zero from 5 to 8 o'clock this morning in Salt Lake City. This is the coldest since February 12, 1905, when the mercury fell to four degrees below.

San Francisco, Jan. 6.—The lowest temperature recorded here by the weather bureau was 22. Ice formed on the streets, and the Marin county shore of San Francisco bay was cracking with ice this morning.

In the San Joaquin foothills, the temperature got as low as 16, and in the orange belt it ranged from 20 to 25, causing considerable damage.

Washington, D. C., Jan. 6.—The eastward advance of the first cold weather of the winter, coming down from Alaska into the Canadian northwest, has been effectively retarded by an area of high pressure developed over the western Atlantic ocean and coast states, the weather bureau announced to-day. Very low temperatures prevail throughout the West.

Cannot Under Any Circumstances Decide on the Foreign Policy

## COLONIAL SECRETARY ISSUES A STATEMENT

Matter Was Discussed and  
Made Plain to Premier Borden  
Last Summer

## SAME OFFER OPEN TO ALL OTHER DOMINIONS

London, Jan. 5.—Papers issued last night state that Right Hon. Lewis Harcourt, Colonial Secretary, has made an offer to the self-governing dominions in respect to the Imperial defence committee. The offer is in addition to the resolution proposed by Sir Joseph Ward and passed at the last Imperial conference, namely, that representation should be by ministers who would be responsible to their own colleagues in parliament.

At the same time it was decided that a defence committee should be established in each dominion, which would be kept in close touch with the committee of Imperial defence at home.

Resolutions were ultimately put forward by the home government, and accepted by the Imperial conference, and the committee of Imperial defence, which was that one or more representatives appointed by the respective governments of the dominions should be invited to attend the meetings of the committee of Imperial defence when questions of naval and military defence affecting the overseas dominions were under consideration, and that the constitution of the overseas committee should be a matter for each dominion to decide, the principle of their establishment having been accomplished.

"When Premier Borden and his colleagues were here last summer," Mr. Harcourt said, "these identical proposals were placed before them, and subject to criticism from their colleagues in Canada, were accepted."

"Premier Asquith and I subsequently had private conversations with Premier Borden, at which he expressed the desire that the Canadian and other Dominion ministers who might be in London be members of the committee of Imperial defence, and should receive in confidence knowledge of the policy and proceedings of the Imperial government in foreign and other affairs. We pointed out to him that the committee of Imperial defence is purely an advisory body, and is not, and cannot under any circumstances become, a body deciding on a policy, which is and must remain the sole prerogative of the cabinet, subject to support of the House of Commons."

"At the same time we assured him that any Dominion minister resident here would at all times have free and full access to the Prime Minister, the Foreign Secretary and the Colonial Secretary for information on all questions of Imperial policy."

"From Premier Borden's public speech in introducing the Canadian naval bill it appears that he accepts the proposals which we have made. The same offer is, of course, open to all other self-governing dominions, but the proposal is not necessarily of strict uniformity, and can be varied in case of each or any dominion to suit their wishes or the special circumstances of their case."

"I should be glad to know, at their convenience, whether your ministers desire to adopt some such method or more continuous connections in military affairs with the committee of Imperial defence in the United Kingdom."

to-day. Very low temperatures prevail throughout the West.

Tacoma, Wash., Jan. 6.—Several persons who ventured on what is known as Big Wapato lake, south of where the greater part of the skaters congregated yesterday, went through the ice. Jack Graham, who was demonstrating to a number of friends that the ice was plenty strong enough, went through to his neck, but finally managed to squirm out.

Spokane, Wash., Jan. 5.—A temperature of ten degrees above zero was reported here to-day by the local weather bureau. Low temperatures prevailed throughout the northwestern territory. The coldest place in Montana was Havre, which reported 30 degrees below zero.

St. Louis, Mo., Jan. 6.—Payments and sidewalks in St. Louis have been covered with ice to-day and many reports of accidents were received.

## VICTORIA SKATERS NO EXCEPTION

Skaters everywhere, amateur and professional, have found comfort, assistance and safety in

## BRITISH OFFICERS AMERICA'S GUESTS

Visit Ambassador Bryce and Attend Reception of Secretary of the Navy

Washington, D. C., Jan. 6.—Under the escort of Lieut.-Commander Sypher, U. S. N., four officers of the British warship Natal arrived in Washington this morning to be the guests of the navy department. They are Captain Grextor, Engineer-Commander S. J. Sutton, Lieut. Ralph Elliott, and Assistant Paymaster F. C. King. The Natal brought back the body of Ambassador Reid, and its officers have seized the opportunity to see the American capital before returning to their own shores.

Joined by Lieut.-Commander Bricker, representing the government, the visitors were driven to a hotel, where they breakfasted. A call immediately on Secretary of the Navy Meyer at the navy department, and a visit of respect to British Ambassador Bryce were on the programme. To-night the British officers will attend a reception given in their honor by Secretary and Mrs. Meyer.

## NEW TESTING FOR SUBMARINE BOATS

Vessels to Be Placed in Huge Cylinder and Put Under High Pressure

Washington, D. C., Jan. 6.—The naval general board has submitted to congress a recommendation for a testing and wrecking docks which would be used for salvaging submarines of any size, docking them and making tests to determine the resistance to external water pressures. The board holds that two of these docks ultimately will be required for the Atlantic coast, and one each for the Pacific coast, Hawaii, Panama, Guam and the Philippines. It points out that the need is very urgent in view of the increasing number of submarines and the age of some of the older vessels of that class. The plans for the proposed structure include provision for a large cylinder which can be filled with water. Into it the submarine would be placed and subjected to any degree of pressure. Thus would be accomplished without danger the same results as now are obtained in tests which send the submarines down into the depths and demonstrate the resistance of the vessel.

## Advice About Money

The old saw "Waste not; want not," was never truer than when spoken in connection with money.

It's the saving, not the wasting, of money that insures you against want when old.

In order not to waste yours, save and deposit steadily in our Savings Department.

4% interest will be added.

## POLICE RAID LARGE GAMBLING QUARTERS

HUNDRED AND SIX  
CHINESE ARRESTED

Biggest Raid Known in Vancouver in Moral Reform Association Building

Vancouver, Jan. 6.—In what will go down in the annals of the local police force as the biggest raid on record here, 106 Chinese were arrested last night when Chief of Police Mulhern and seven other members of the force swooped down on a gambling house at 540 Carrall street. In the crowded rooms five dealers, one a woman, were found dealing out the cards in fan-tan. When the police entered the mob of gamblers in both inside and outside rooms, pocketed their money and attempted to rush the entrance.

Prepared for this move the police, after a struggle lasting several minutes, succeeded in arresting the entire number in one room. One entrance was barred by a heavy garbage can, and as Chief Mulhern rushed in to the doorway, he narrowly missed the obstacle, as did Inspector Jackson, who followed him.

The den was fitted to accommodate an even larger number than was present at the time of the raid. In the search which followed the arrests, several opium outfits were found in one of the rooms where there was sleeping accommodation for fifty men. The building in which the den is situated is that of the Canadian Chinese Moral Reform Association.

Bail for the prisoners, placed by Magistrate Shaw at \$25 each, swelled the coffers of the city by the sum of \$2,650.

## MONEY TRUST WILL CONTINUE PROBING

Investigation of Credits and Finance Will Conclude Work of Committee

Washington, D. C., Jan. 6.—Further inquiry into the so-called "concentration of money and credits" confronted the House banking and currency committee with the resumption to-day of the money trust investigation. Before the holiday adjournment the committee concluded most of its investigation of stock exchanges and clearing houses, leaving only minor details under those heads to be placed on the records.

The investigation of money and credits will conclude the committee's efforts, and Chairman Pujo expects to have a report before the House by February 1. Comptroller of the Currency G. Murray was scheduled as one of the first witnesses. Thomas Fortune Ryan also will appear this week.

## GOMPERS APPEARS BEFORE COMMITTEE

Favors Legislation Under Consideration and Refers to Dynamite Trials

Washington, D. C., Jan. 6.—Samuel Gompers, president of the American Federation of Labor was one of the first to appear to-day before the House sub-committee of the judiciary which took up hearings on the anti-injunction and contempt bills.

Mr. Gompers and his organization are strongly in favor of the enactment of the legislation under consideration. He indicated that before he is through with his remarks to the sub-committee he would refer with emphasis to the conviction and imprisonment of the thirty-three members of the ironworkers' organization.

He indicated that before he is through with his remarks to the sub-committee he would refer with emphasis to the conviction and imprisonment of the thirty-three members of the ironworkers' organization.

He indicated that before he is through with his remarks to the sub-committee he would refer with emphasis to the conviction and imprisonment of the thirty-three members of the ironworkers' organization.

## LOVE AFFAIR ENDS IN GUN SHOOTING

Man in Hospital at Seattle as Result of Jealousy Over Girl

Seattle, Wash., Jan. 5.—Prompted by jealousy over the affections of Ida Laitinen, a pretty Finnish girl, Jacob Autie, an employee of the Albers Milling Company, last evening shot and dangerously wounded his rival, John Kokkanen.

Autie was arrested an hour after the shooting by detectives as he was about to enter a Finnish boarding house where he lives. He said that Kokkanen struck him before he shot. He had a long slash on his forehead to substantiate his statement.

Kokkanen is in a dangerous condition, but it is believed he will recover.

No ship is allowed to pass through the Suez Canal without a searchlight of a particular type. If the vessel has not one of her own she must borrow one.

## SEATTLE GETS SHARE OF THE COLD WEATHER

Tacoma and Portland Feel Drop of Temperature Last Forty-Eight Hours

Seattle, Wash., Jan. 6.—The coal bills of Seattle householders hit the mark for the 24 hours' record yesterday and to-day the plumb is likely to join the fuel man in enjoying the rewards of January's cold wave.

The weather bureau's thermometers recorded a minimum of 23 deg. Saturday night, and the highest the mercury crept yesterday was 31, and at 8 o'clock last night it registered 23, showing a disposition to outdo Saturday night's record before morning.

It was colder in Tacoma, and a little bit warmer in Portland at night and in the morning, but one degree colder during the day than in this city.

## NEW CABINET FORMED.

Lisbon, Jan. 6.—The President of the Republic has accepted the resignation of the Cabinet and entrusted Antonio Jose Almeida, leader of the Conservatives, with the formation of a new Ministry.

Señor Almeida, whose policy of conciliation has been violently opposed by the Democrats under Dr. Alfonso Costa, leading to the recent disorderly scenes in the Chamber, has outlined a programme which includes financial retrenchment, revision of the law governing the separation of church and state, more liberal treatment for ecclesiastics, and amnesty for the political prisoners.

## HOLD-UP MEN SHOT.

Seattle, Wash., Jan. 6.—John Moore, 30 years old, was killed, Ed. Collins, aged 27, was shot in the neck, and John Byllings, a Snohomish policeman, was shot in the leg late to-night in a pistol fight that began when Moore and Collins attempted to hold up a saloon at Snohomish, a town thirty miles north of here.

## BERKMAN'S STORY OF ESCAPE FROM PRISON

Twenty years ago, at the time of the Homestead riots, a man named Alexander Berkman entered the office of Henry Frick in Pittsburgh and shot him. Frick escaped with his life, but his assistant, Berkman, was arrested. It was proved that he was an Anarchist who had no personal grudge against the millionaire, and he was sentenced to 30 years' imprisonment in the State's prison at Allegheny. He was barely 21 years old at the time. After serving 14 years Berkman was released. Since then he has been a propagandist of anarchy, and has delivered scores of lectures on the subject. Recently he wrote a book, the feature of which was his attempt to escape from the prison where he was confined. More recently still he has written a denunciation of the editors who reviewed his book, complaining that they missed the real story, he had to deliver, and confined themselves to comment on its really dramatic passages in which he recounts his attempt to escape.

Like Kropotkin's Story.

Berkman is probably a better Anarchist than a newspaper man or editor. He is not aware, apparently, that the public is not particularly interested in the message of anarchy, but is interested in any dramatic story that anyone has to tell; and as far as the reviewers are concerned, what use is it for them to recommend principles that nobody cares about, and fail to mention a real story of adventure that everyone is concerned with? Prince Kropotkin's story of his escape from a Russian prison where he was confined for five years is a masterpiece of narrative. Berkman tells an equally good story, but the denouement favors the Russian from a dramatic point of view. He escaped, Berkman failed. Otherwise there is little to choose between the two accounts. Kropotkin was better treated in his dungeon than Berkman, perhaps. At any rate, the American Anarchist speedily came to the conclusion that he would as soon perish in attempting to escape as die of the treatment that was meted out to him in the Allegheny prison.

## A Tunnel to Freedom.

His keen wits were constantly engaged on the problem of how to escape. He turned over one plan and another in his head until his brain reeled. A tunnel figured in all of them. Being in the cell of the prison yard, it was natural that his idea of a tunnel should start from the inside of the prison. One day in a flash of inspiration the thought occurred of a tunnel built from the outside. Half the difficulties disappeared instantly. Berkman got in communication with his friends. Money and enthusiasm for the attempt was pledged, and the plan was seen under way. A house was rented about a quarter of a mile from the prison, and his friends took possession of it. Engineers who happened to be Anarchists were engaged, and the work of tunnelling to a point in the prison grounds was begun. In order that the noise of the operations might be concealed a sign of "Piano Instruction" was tacked in the window, and the professor was employed to pound the piano for 15 hours a day while the tunnel was being sunk.

Trained Sparrows Helped.

To drill the tunnel under the very walls of the prison seemed impossible, and it was determined to make the opening somewhere in the prison yard. The trouble was that Berkman was not allowed to leave the yard, and he had to overcome this difficulty. He sought to do by training a couple of sparrows that visited him daily to partake of his food. Eventually he had the sparrows sufficiently tame, and he sought to appeal to the

warden in behalf of the sparrows, which he desired to exercise in the yard. The privilege was refused, but a report to the prison physician on the ground of ill-health succeeded, and finally he reached the open air. A few days later there was a fight among the prisoners in which Berkman mixed, and the result was that his privileges were curtailed. In a month or two, when he was again permitted to take the air, he found that his sparrows had disappeared. So he had to train another pair, and thus was able to frequent the prison yard and more freely communicate with his friends.

Betrayed by Boys.

The tunnel was pushed under the prison wall, and was to be brought a few inches from the surface in the yard. Berkman protested that it ought to emerge in a shed, some risk being further on, but it happened to be under a pile of rubbish, and Berkman was unable to reach it. About this time funds for the work gave out, and there was a long delay until more money was forthcoming. Then the project was renewed, but the delay had been fatal. A couple of boys playing in the neighborhood had noticed the earth removed from the tunnel, and had drawn attention to it. An investigation followed. The tunnel was found and blocked with cement and all the prisoners were confined to their cells. Berkman, with others, was cross-examined, but he succeeded in averting suspicion by pointing to the fact that he was fighting for a pardon, and so escaped an extension of his sentence. This ended the plot. Berkman served his 14-year term, and was allowed his liberty. Confinement has not changed his principles, and he is a stouter advocate of anarchy than ever. He is a good deal more prosperous than in the old Homestead days, however, and his quarrel with society is quite impersonal.—Mail and Empire.

## NEW TRAM REGULATIONS

On and after January 1, 1913, certain alterations will be made in the regulations of this company covering the transportation of passengers over its lines.

IN EACH CAR WILL BE PLACED A CARD STATING ITS CARRYING CAPACITY. WHEN THIS NUMBER OF PASSENGERS ARE ABOARD A SIGN, "CAR FULL," WILL BE DISPLAYED ON THE REAR PLATFORM AND THE CAR WILL NOT STOP TO TAKE ON ADDITIONAL PASSENGERS UNTIL PERSONS HAVE LEFT THE CAR, AND THEN ONLY TO THE NUMBER LEAVING.

RIDING ON THE STEPS OF CARS WILL BE STRICTLY PROHIBITED.

The company is doing all that "man and money" can do to provide an adequate tram service which will guarantee convenience and safety for its passengers, and this policy will be continued, in the line of the provision of additional cars.

After New Year's Day riding on the steps, bumpers or fenders of cars will be a violation of the provincial regulations and such action cannot be permitted by the company. As speedily as possible, with due regard to public convenience, the platforms of all cars will be equipped with gates or doors.

THE GENERAL PUBLIC IS RESPECTFULLY REQUESTED TO CO-OPERATE WITH THE COMPANY IN THE ENFORCEMENT OF THE NEW REGULATIONS. THEY ARE INTENDED TO BETTER PROVIDE FOR THE CONVENIENCE AND SAFETY OF PASSENGERS, AND THESE ENDS WILL BE ATTAINED MORE QUICKLY IF SUCH CO-OPERATION IS GIVEN.

## STUDIED INSECTS IN JAPAN AND RUSSIA

Prof. Kincaid, Eminent Entomologist, Will Speak on  
Incidents of Travels

Prof. Trevor Kincaid, head of the department of zoology, University of Washington, Seattle, is a Canadian who was born in Peterborough, Ontario, and who attended Canadian schools until his family moved to the State of Washington. After studying at the University of Washington he was made an instructor of zoology. About twelve years ago, when E. H. Harriman, the railway magnate, fitted out a steamer with which to make a pleasure trip, Prof. Kincaid was honored with an invitation to undertake the research work in entomology in connection with the scientific side of the expedition. Later Professor Kincaid was sent to the Bermudas to carry on important scientific investigations there. Returning to the West he resumed his duties at the University of Washington.

Six or seven years ago, when the gypsy moth was devastating the orchards of the Eastern United States, the American government asked Prof. Kincaid to go to Japan and make a study of this moth and its natural enemies; also to collect parasites which attack it, and send these to America to fight the destructive insect which had been rendered practically ineffective in Japan through its enemies. The following year Prof. Kincaid was sent to Russia on a similar mission, and in both instances was particularly successful in his quest. It was on account of this that, when the professor sent to the University Women's Club a list of subjects from which to choose, "Parasite Hunting in Japan" was selected as likely to be of special interest. It is expected that a large audience will attend the lecture to be given on this subject by the eminent scientist on Saturday evening next at the Alexandra Club.

### WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Jan. 6.—5 a. m.—During the last 24 hours snow has fallen generally over this province, accompanied by decidedly cold weather. Sharp frosts have spread southward to San Francisco, and Portland, Oregon, reports 10 degrees of frost. The temperature in the prairie provinces ranges from 20 below in Alberta to 34 below in Manitoba. The barometer is now falling on the Coast and milder weather will follow.

Forecasts.  
For 24 hours ending 5 p. m., Tuesday. Victoria and vicinity—Increasing easterly to southerly winds, unsettled, with snow or sleet, turning milder.  
Lower Mainland—Easterly and southerly

## MINERAL PRODUCTION SHOWS BIG INCREASE

British Columbia Takes Trib-  
ute of Over Thirty Million  
Dollars From the Rocks

The estimate of the mines department indicates that the mineral production of the province for 1912, as estimated by the provincial mineralogist, W. Fleet Robertson, shows a value set at \$32,000,000, as compared with \$23,500,000 in 1911.

He estimates the production at the following figures for the past twelve months: 240,000 ounces of gold, both lode and placer productions; 2,900,000 ounces of silver; 30,000,000 pounds of lead; 51,000,000 pounds of copper; 8,500,000 pounds of zinc; 2,650,000 tons (of 2,240 pounds each) of coal and 24,000 tons of coke.

Both coal and coke have increased in spite of the strike in the Extension and Cumberland mines, but against that has to be set the increased production in the Crow's Nest district, which had suffered severely the previous year by the great Ferris strike.

### MR. BELL WILL NOT STAND.

Declines Invitation to Be Candidate  
for Aldermanic Honors Next Week.

George Bell, acting secretary of the Y. M. C. A., announces to the Times that he will not be a candidate for aldermanic honors this year. His business interests in this city and in the Okanagan valley require that he devote his attention to them at the

present juncture, and he has a large amount of semi-public work in connection with the Methodist church which he feels reluctant to give up at the present time. Mr. Bell expressed the opinion that he should devote 25 to 30 per cent. of his time to these duties. There are 17 candidates in the Ball for alderman at the present time and before nomination day comes a week hence the numbers should be greatly

### BROKE THE RECORD.

British Columbia broke the record in its mineral output for the year recently ended. The total value of our production for the twelve months approximately was more than thirty-two million dollars, an increase over the aggregate of the preceding year of more than nine million. The largest advance was made in copper, thanks to a very buoyant market, which enabled the producers to run up a gratifying total. Coal and coke also made substantial gains, and a marked improvement is noticeable in the other minerals. Should this highly satisfactory condition continue British Columbia should eventually pass Ontario in the value of its annual mineral production. Our splendid showing for 1912 will be a strong stimulus to the industry during the year upon which we have just entered, and we can devoutly hope that the activity we may look forward to will be amply justified by satisfactory market conditions. A result of the big strides made by our mining industry last year renewed interest will be taken in this province by outside investors, who are always ready to put their money in what they believe to be sound propositions.

### OUR VULNERABLE POINTS.

For many years British soldiers were maintained in Canada at the expense of the taxpayers of the Old Country. Fifty years ago there were eighteen thousand of them on Canadian soil. In 1861-62 the committee on expenses of the militia in London submitted a report on this matter in which it was stated: "The system prevents the development of a proper spirit of self-reliance among the colonists and encourages their national character. By the gift of political government we have bestowed on our colonists the most important element of national education, but the habit of self-dependence constitutes a part hardly less important to the training of a free people, and it will never be acquired by our colonists if we assume the task of defending them."

Previous to that time Earl Grey, Colonial Secretary, in a letter to the Governor-General of Canada, pointed out that as Canada in common with the other British provinces in North America enjoyed in the most ample manner the advantage of self-government, it was the view of the British government that the advantage should carry with it corresponding responsibility in the matter of military protection and that the Mother Country should be relieved of this burden.

In 1870 British troops were removed from Canada and the Dominion did what she was urged to do by the statesmen of Britain, undertook the establishment and control of her own land forces. The military service of Canada now requires an annual expenditure of ten million dollars, and it is an efficient, well-trained and generally well-equipped force. But the great bulk of the sixty thousand men who constitute it is stationed where it is least required. No sane person looks forward to hostilities between this country and the great republic on the south of us, if anything of the kind were in prospect Canada would require many times sixty thousand men. She would have to become an armed camp like European countries, with a very large military force eating into her revenues and impeding her development.

Canada's vulnerable points, therefore, are on the Pacific Coast. The Toronto Globe emphasizes the necessity of recasting the whole defensive plan of this country, and contends that this should be taken in hand with the consideration of the navy question. For the sending of thirty-five million dollars across the Atlantic will not place one ship, man or gun on either coast. Should hostilities break out one armored cruiser could destroy our shipping and work immense havoc on our harbor improvements and public and private works. Why try to develop a Canadian commerce on the great ocean without providing the

means for its protection? Why spend millions on harbors and railway terminals without taking measures for safeguarding them? Should not Canada undertake this duty herself? Great Britain asked her to do it by land. How much more necessary, in the circumstances, is it that she should do it on the sea. Australia grasped the situation some years ago, and is now grappling with the problem. Canada, however, is asked by her Prime Minister to adopt a proposal which, in the words of the militia committee of Great Britain years ago, "prevents the development of a proper spirit of self-reliance among the colonists and encourages their national character."

### THE COMING FLOOD.

The opening of the Panama Canal will be followed by marked commercial expansion and activity along the whole Pacific Coast of America. It will also present a difficult immigration problem to the various governments. Canadian Finance points out that much of the immigration from Southern Europe which now pours into the United States through New York will make for the land of promise on the Pacific, and conditions must be anticipated so that this influx can be imperceptibly merged into the life of the country without causing any trouble. There is no doubt that a large proportion of these people will go to British Columbia, and it would not be to our advantage to have them concentrate in our cities. The matter is well worth the timely consideration of the authorities, so that they may be prepared to adopt measures that will ensure the admission of only those elements that are desirable.

### IMPERIAL DEFENCE COMMITTEE.

The government at Ottawa has received from the Secretary of State for the Colonies a dispatch detailing the arrangement under which representatives of the overseas dominions will participate in the deliberations of the Imperial Defence Committee. These representatives are to be invited to attend meetings of the committee when questions of naval or military defence affecting the dominions are under consideration. The Canadian member will be consulted with regard to matters affecting Canada. It is not to be expected, nor is it desirable, that he should take part in discussions relating to the other dominions. The suggestion that this gives Canada or the other dominions a voice in determining the foreign policy of the empire is absurd. Everybody who has read the proceedings of the various imperial conferences in recent times knows that the Prime Minister of Great Britain has repeatedly made it clear that foreign policy is absolutely and exclusively under the control of the British cabinet, and it is not the intention to alter that condition one iota. This point has been emphatically brought out by Mr. Harcourt in his remarks explanatory of the dispatch just received by Mr. Borden, in which he said:

"Premier Asquith and I subsequently had private conversations with Mr. Borden, at which he expressed the desire that the Canadian and other dominion ministers who might be in London be members of the committee of imperial defence, and should receive in confidence knowledge of the policy and proceedings of the imperial government in foreign and other affairs. We pointed out to him that the committee of imperial defence is purely an advisory body, and is not, and cannot under any circumstances become, a body deciding on a policy, which is and must remain the sole prerogative of the cabinet, subject to the support of the House of Commons."

The dominions' representatives, therefore, can have absolutely no voice in determining the foreign policy of the empire, no matter how many cash contributions they make to the admiralty. They will merely be consulted for advisory purposes on matters pertaining to the defence of their own countries. The committee on imperial defence at present consists of fourteen members, seven cabinet ministers and seven permanent officials of the navy and military boards. The limited degree to which the dominion ministers may participate in its deliberations is not conditional upon their adoption of a naval policy such as that proposed by Mr. Borden. Australia will have a member on the committee, and Australia is organizing her own navy for service in her own waters. In other words, Mr. Borden's proposals obtain for us nothing that we could not enjoy by adopting the policy recommended by Sir William Laurier. This is made abundantly clear by the highest authority, the Secretary of State for the Colonies.

### AN UNFORTUNATE POSITION.

In submitting his naval proposals to the House of Commons recently Mr. Borden said, in reiteration of the view expressed by him when leader of the opposition:

"Then, sir, as to the permanent policy, I think the people have a right to be consulted. I do not know whether I have made my position clear, but I have done so according to my humble capacity. I think the question of Can-

# BURN KIRK'S COAL

518 Yates Street and Esqui-

maut Road.

Phones 212 and 139.

ada's co-operation upon a permanent basis in imperial defence involves very large and wide considerations. If Canada and the other dominions of the Empire are to take their part as nations of this Empire in the defence of the Empire as a whole shall it be that we, contributing to that defence of the whole Empire, shall have absolutely, as citizens of this country, no voice whatever in the councils of the Empire.

"I do not think that such would be a tolerable condition. I do not believe that the people of Canada would for one moment submit to such a condition."

He therefore makes it clear that as far as he is concerned here will be no permanent policy for Canada until the Dominion obtains a voice in the councils of the Empire. The contribution promised by him does not give us that voice, for Mr. Harcourt says the Imperial Defence Committee cannot become a body deciding a policy, which remains the exclusive prerogative of the British cabinet. Then, no permanent policy being possible as long as Mr. Borden is in power, it seems that he proposes to go no further than to send an emergency contribution to the Admiralty for three ships, without providing for their maintenance. Surely he does not regard such a course as consistent with Canada's dignity as a great self-governing Dominion. Even at best nothing remains for him but to propose an irregular series of emergency cash contributions, which, carrying no voice in the issues of peace and war, would place Canada in an intolerable position. How differently has Australia acted in this situation. She is developing her own navy and retains her membership on the Committee of Imperial Defence.

Sir Joseph Lawrence has a new suggestion for the introduction of protection in Britain. Instead of giving Colonial wheat a preference by taxing the foreign product, he would give our wheat a bounty of two shillings a quarter, to be paid out of the duties levied on foreign manufactures. Ultimately he would extend the principle to other foodstuffs. This would increase the cost of manufactured goods to the British people for the purpose of giving a bounty to the Colonial producers of foodstuffs. It would be followed by a demand from the British farmer for a quid pro quo, because the protection appetite is catching, and he would demand a chair at the feast. Again, should the imposition of a protective duty on manufactures reduce the foreign imports to any appreciable extent, what would become of our bounty?

The death of James R. Keene in New York has removed, perhaps, the most daring stock manipulator of the generation. He made his fortune in Nevada mines and then swooped down on New York for the purpose, as he put it, of running up against Jay Gould. The "little wizard" heard of the challenge and set his trap. Keene fell into it and was considerably squeezed. He learned his lesson, and profited by it. It was he who handled the stock manipulation in the interests of the Morgan-Hill combination when they were wrestling with the Harriman-Rockefeller group for the possession of the Northern Pacific. The former won by a neck, but the contest was a titanic one.

President Taft has seen a great white light. He is now desirous that the Panama Canal question be submitted to arbitration. The election is over, and he can adopt the attitude he should have been big enough to adopt last summer. No matter which wisdom he retain the respect of the world can play and keep with the treaty obligations. The United States is too great a power to hide behind the subterfuge that the tolls question is a "domestic matter," and therefore should not be arbitrated. In that case all international problems are domestic. From this peculiar position of union emerges within its ample folds all subjects originating within the boundaries of the western hemisphere.

# The Season's Best Costumes at Greatly Reduced Prices During the January Sale

EVERY costume that we have in the store is included in the sweeping reductions, and judging by the strong demand that we have experienced since the sale opened, these values have met with great approval.

They come in all sizes from those made to fit the growing young woman up to the large sizes, and as there is a tremendous range of materials, colors and styles to choose from, there is sure to be one here that will give you satisfaction.

Why not make your choice on Tuesday while the best are to be had?

**\$25.00 COSTUMES REDUCED TO ..... \$9.75**  
**\$30.00 COSTUMES REDUCED TO ..... \$14.75**  
**\$47.00 COSTUMES REDUCED TO ..... \$19.75**

## The January Sale of Bedding is Proving a Great Success

A GLANCE OVER THE FOLLOWING ITEMS WILL TELL YOU THE REASON WHY

BETWEEN the small prices and the excellent quality of the bedding, Victorians have the best values that we have offered for a long time before them at this sale.

To see the goods is to realize that they were never made to be sold at such figures, but it is our policy to clean out our entire stock of winter goods while they are seasonable, and have marked them accordingly.

### \$4.50 BLANKETS TO GO AT \$3.50

Full size and made of the best Canadian wools. A good blanket to make you comfortable during the cold nights.

### \$6.00 ALL-WOOL BLANKETS FOR \$5.00

Only 50 pairs to be sold. It is rare that you see this class of blanket at such a low figure and we expect them to sell rapidly.

### ENGLISH AND SCOTCH WOOL BLANKETS

These are the best lines of blankets that are made and are well worth the little extra that they cost. You get greater value through their better wearing qualities and the added comfort. Various sizes and grades from \$17.50 a pair down to ..... \$9.75

### GREY BLANKETS SPECIALLY PRICED

You can have them in a variety of grades ranging from the 5 to the 10 lbs., and we have both the light and the dark shade of grey. Prices start at \$9.50 a pair and range down to ..... \$2.50

### WHITE GRECIAN QUILTS

Easily laundered, neat in appearance, and a style that will render excellent service are features that have made this style of quilt popular. For three-quarter size the price is \$1.50 and \$1.35; for the full size only ..... \$1.65

## Stylish Boots for Little Ladies

EVEN if they are of tender age, the ladies-to-be take a pride in their appearance and want something like mother wears. Then it is natural that mothers should demand that their girls' boots shall be right up-to-date in style, in addition to being as comfortable and durable as they can be made. That the manufacturers are alive to the demand is amply demonstrated by the showing in this department. There are some very fine lines of button and lace boots in patent leather, tan calf, box calf, and glazed kid; also some beauties with cloth tops in patent leather.

High topped lace boots in patent leather and some with patent tips and patent collars, also high-topped tan calf button-boots finished with a tasseled toe to be had.

Most are the "Good Sense" brand, and are fitted with solid oak-bark-tanned leather soles and heels.

**TWENTY-FIVE YEARS AGO TO-DAY**

Victoria Times, January 6, 1888.

**Municipal Notice.**—The nomination of candidates for the respective offices of mayor and councillors of the city of Victoria shall take place at the city hall, in the said city, on Monday, the ninth of January, 1888.

The Canadian Pacific Navigation Company are contemplating the construction of a steel steamer to ply between Vancouver and Victoria, at a cost of some \$200,000. She will be built on the Clyde.

R. T. Williams is on a visit to the mainland.

Captain White of "C" Battery, has resigned his position in the battery here, and will shortly leave for Quebec, where he will reside in future. His father died a short time ago, leaving the captain some \$100,000.

The Winnipeg Commercial says of Victoria's industries: "It would be found impossible to compete with the manufacturers of cheap eastern labor at the price at which white labor has been on sale in British Columbia. Several of the industrial institutions of Victoria are kept alive, and made remunerative solely through the opportunities offered by cheap labor."

**Daughters of Empire.**—The Lady Douglas Chapter of the Daughters of the Empire will meet in the Alexandra Club on Tuesday at 3 o'clock.

**Auxiliary to Meet.**—St. John's branch of the Woman's Auxiliary to Missions will hold its regular meeting in the Guild room, St. John's Hall, Herald street, on Tuesday afternoon at 2.30 o'clock.

**Will Discuss Sewers.**—The report of the special committee on sewers is expected at this evening's meeting of the Esquimalt Township Council, and a warm discussion is expected. This is the last meeting of the year.

**Will Attend Commission.**—The labor commission having decided not to visit Cumberland until late in the spring or the summer, the striking miners have decided to attend the sittings of the commission in Victoria on January 14 and 15, and present their case.

**Warm Comfortable Underwear** at Sale Prices. J. N. Harvey, Ltd., 614 Yates Street.

**L'Alliance Francaise.**—This society will resume its meeting at the Alexandra Club to-morrow afternoon at 2.30.

**Children's Dance.**—Mrs. Simpson will give a Cinderella dance for children next Friday evening at 5 o'clock at the Connaught rooms, View street.

**Lady Douglas Chapter.**—The Lady Douglas chapter of the Daughters of Empire will meet to-morrow afternoon at 3 o'clock at the Alexandra Club.

**Friendly Help.**—The Friendly Help Association will hold its monthly meeting to-morrow, Tuesday, morning, at 11 o'clock, in its rooms, Market building.

**Maccabees to Meet.**—The Baxter Hive of the Ladies of the Maccabees will meet to-morrow evening at 8 o'clock in the A. O. U. W. hall. A good attendance is requested.

**Patrol Beacon Hill Park.**—Two police officers will patrol Beacon Hill park after nightfall in future. Representations that police supervision was needed there led the police commissioners to decide upon this step.

**Nurses to Meet.**—The monthly meeting of the local committee of the Victorian Order of Nurses will be held in the rest room of the Young Women's Christian Association, Courtney street, on January 7, at 2.30 p. m. A full attendance is requested.

**Lecture at Baptist Church.**—This evening at 8 o'clock Mr. Marchant will lecture under the auspices of the Young People's Society of the First Baptist church on the subject of "Proportional Representation." This will be followed by a mock election.

**It Was a Joke.**—Alexander Land-chick, who was charged in police court this morning with stealing the watch of a fellow employee at the Canadian Paper Sound Lumber Company's premises, was acquitted as it was shown that his detention of the time-piece was merely an ill-advised joke.

**Scottish Bard Concert.**—The annual Burns' concert will be given under the auspices of the First Presbyterian Church choir at the Victoria theatre on January 22. Mr. J. G. Brown conducting. Miss Hennes, the Assistant-Governor and Mrs. Paterson have kindly consented to give their patronage.

**The Wind Blows Cold** which makes the Red Arrow Store's Overcoat Sale a timely saving opportunity. \$20 Overcoats now \$11.50. J. N. Harvey, Ltd., 614 Yates Street.

**ADD THE MUSICAL ATMOSPHERE TO YOUR HOME**

A good Piano places any home on a new basis, gives it a new start on the road to complete happiness. Without a Piano your home is lacking in one of the chief elements. You are depriving your family of the culture and refining influence of music if you have not provided them with a good Piano.

**Canada's Best Piano IS THE Gerhard Heintzman**

There is evidence, and to spare of this fact, but it need only be stated that more than \$3000 of these instruments are in use on Vancouver Island alone, and that they are found in the most pretentious, the most refined and the most modest homes throughout the entire Dominion. The reason lies in their absolute superiority of materials, workmanship, tone durability and finish. There is nothing slipshod about the manufacture of these Pianos, and although the output of the factory increases almost every month, there has never been any cessation of the maker's personal supervision since he, with his own hands, turned out the first instrument that bore his name. The Gerhard Heintzman is a proved Piano. Its sweet, resonant and lasting tone is famous; its action is the admiration of all who have tried it, and its finish and case architecture are equal to those of any Piano made.

**THINK OF BUYING A PIANO NOW, AND BY ALL MEANS, SEE AND HEAR THE GERHARD HEINTZMAN FIRST OF ALL**  
Costs No More Than Many Inferior Makes. Sells on Easiest Terms

## BRINGS VALUABLE SILK CARGO HERE

MONTEAGLE ARRIVED  
ON SUNDAY MORNING

Five Stowaways Are Found in Hold—Claim They Were Stevedores

The Monteagle, Commander Davidson, arrived at the outer wharf about 8.30 yesterday morning, and made a brief stay before leaving for Vancouver to rush her valuable silk cargo across the continent. Of her total freight of 5,395 tons, she brought 4,911 bales of raw silk, 33 bales of pongee and 202 bales of silk piece goods, the value of the silk cargo being \$2,573,000.

The steamer met with better weather across the Pacific than most of the vessels which have crossed to the Canadian side recently. No incidents occurred to mark the trip save the discovery shortly after leaving Yokohama of five stowaways in the hold. Ragged and unhappy they looked when the immigration officers brought them out on the dock. The story the lads had given of their presence was that they had been engaged in stevedore work in the steamer, and failed to hear her warning signal at Yokohama for shore hands to quit the hold. The Japs, who number four, were of the class of men engaged in the lighterage occupation in Oriental ports. The fifth man is a subject of Uncle Sam, and the immigration authorities ordered him to be sent south on the next ferry steamer. The Japs will be kept until the Monteagle is outbound again, Commander Davidson indicating that he had no desire to prosecute under the circumstances.

On the vessel came Mr. and Mrs. Lin Shieh Yuen and the consul's secretary, Mr. Lin, the new Chinese consul at Vancouver in succession to Dr. Chang. Other saloon passengers included G. P. Banner, of Manila, and W. E. Steers, Mr. Banner is provincial treasurer of one of the provinces in the Philippines, and Mr. Steers has been for the last twelve months in Japan studying fu-jitsu. He has land at Metchoin which he has come to visit.

Other saloon passengers were Mr. and Mrs. J. Carroll, with two children, Mr. and Mrs. May J. King, also with one child, Miss Hamilton, Capt. A. H. Hay, Lieut. R. B. Davies, R. N., Mr. and Mrs. E. Mitchell, Messrs. D. Birbeck, J. W. Byrne, F. E. Ducey, H. Kingston, L. Gates, S. Goch, Louis Kilian, W. Lamb, J. Nakayama, S. Nakayama, J. Pretre, M. Sakurada, K. Shiozaki, W. Shearman, C. Stevens, H. Tilley, T. M. Varty, J. M. J. Berkirk, J. Watson and S. Yoshida.

There were 47 Chinese immigrants on board, and 5 Hindus, the latter all returning to Canada, where their homes now are.

### CAPT. LOGAN IS BACK.

Looking fit and well, Capt. W. H. Logan, of the London Salvage Company, has returned to Victoria from Balboa. Capt. Logan was the man who superintended the salvage work on the Pacific mail liner Newport, on which he came North to San Francisco.

### ANOTHER NEW HARRISON SHIP.

Vancouver, Jan. 6.—Balfour, Guthrie & Company, agents here for the Harrison Line, have received word of the launching and trial trip of the steamer Harnatris, which made the fast time of 19 knots at trials in the Old Country recently. The Harnatris is 425 feet long and 32 feet beam, and has three complete steel decks.

## BELIEVE WORKMAN TO BE TOTAL LOSS

San Francisco, Jan. 6.—Cable advices to the Chamber of Commerce here indicate that the Harman line steamer Workman, previously reported ashore fifteen miles south of Rio de Janeiro, is likely to be almost a total loss. In that case the loss on hull and cargo will reach nearly \$1,500,000.

The captain of the Workman reports that the vessel is full of water and that heavy seas are running. All salvage operations have been suspended.

The Workman was bound for London from San Francisco. About \$500,000 of the loss, it is understood, will be borne here. The remainder is believed to have been insured in London.

The Workman carried chiefly high-grade canned fruits and vegetables, estimated to be worth about \$800,000. She was a double-decked, four-master steel vessel of 6,616 tons register, valued approximately at \$700,000.

## BRITISH COMPANIES COMPETE FOR SILK

Blue Funnel and C. P. R. Outdoing Japanese Line—Monteagle's Record Shipment

Old shipping men who quite clearly remember the arrival of the first steamship at this port from the Orient, cannot recall any period of time when such huge shipments of silk were brought across the Pacific as at the present time. Never before was the competition so keen between the various steamship companies for the handling of the costly product of China. Rates have been cut by several companies and it is particularly noticeable that the British ships are grabbing all the business and that the Japanese lines are simply picking up the surplus which the Blue Funnel and C. P. R. boats cannot handle.

Two million dollar cargoes are becoming quite common now. Yesterday the R. M. S. Monteagle steamed into port with a shipment for New York worth \$2,573,000, establishing a new record for the silk business. Previously the Blue Funnel line had held the record.

Not very long ago if a steamship came in with a silk shipment worth \$1,000,000 people thought it was wonderful.

Titan Started the Big Ones. From \$1,000,000 the shipments gradually began to mount upwards during the past year. Nearly three weeks ago a Holt liner came into port, the Belterophon, and she had 4,143 bales, which were worth \$2,071,500. Now along comes the Monteagle with 4,911 bales of raw silk, 33 bales of pongee and 202 packages of silk piece goods, the worth of all which was \$2,573,000.

Since the settlement of the Chinese revolution the silk business has picked up wonderfully. The Blue Funnel line cut rates and immediately the vessels of that fleet were booked for some time ahead to bring large shipments of silk across the Pacific. The C. P. R. ships also received rich cargoes.

## SHIPPING INTELLIGENCE

Jan. 5.  
Aberdeen, Wash.—Arrived: Steamer Wasp, San Francisco; schooner Wilber L. Smith, Callao via Puget Sound. Passed out over bar: Steamer Honolulu, San Francisco; steamer Centralia, San Francisco; steamer Fair Oaks, San Francisco; steamer Columbia, San Francisco; steamer J. B. Tacoma, Wash.—Sailed: schooner Annie Larson, San Francisco.

## TRIP IS LENGTHENED TWO DAYS BY STORMS

MARAMA LATE DOCKING HERE FROM ANTIPODES

May Not Be Here Till Thursday Morning—Canada Maru Also Spoken by Wireless

Bad storms which are being encountered by the Canadian-Australian liner Marama, Capt. Rolls, far out on the Pacific, are holding her back, and it is quite likely that she will not be berthed here until next Thursday morning. The crack liner which is coming north from the Antipodes will be about two days late, as according to her schedule she should be here tomorrow morning.

The progress of the Marama has been checked during the last leg of her voyage from Sydney. Great gales were met soon after she steamed out of Honolulu, and ever since the big steamship has been going against heavy seas and fierce blows. Her speed has been reduced a great deal at times, in order that she might weather the storms.

A wireless was flashed from her commander last night, and he reported that the Marama was 1,000 miles from Victoria at 8 p.m. It is expected that she will pass Tatoosh about 4 o'clock on Wednesday afternoon. She will, therefore, not be able to reach William Head before dark, and unless the tender meets her in the straits she will have to remain at the station over night. If the weather continues bad she may be still further delayed.

The Marama is coming north with a light list of passengers and has about 1,500 tons of cargo aboard, including about 100 tons of this port.

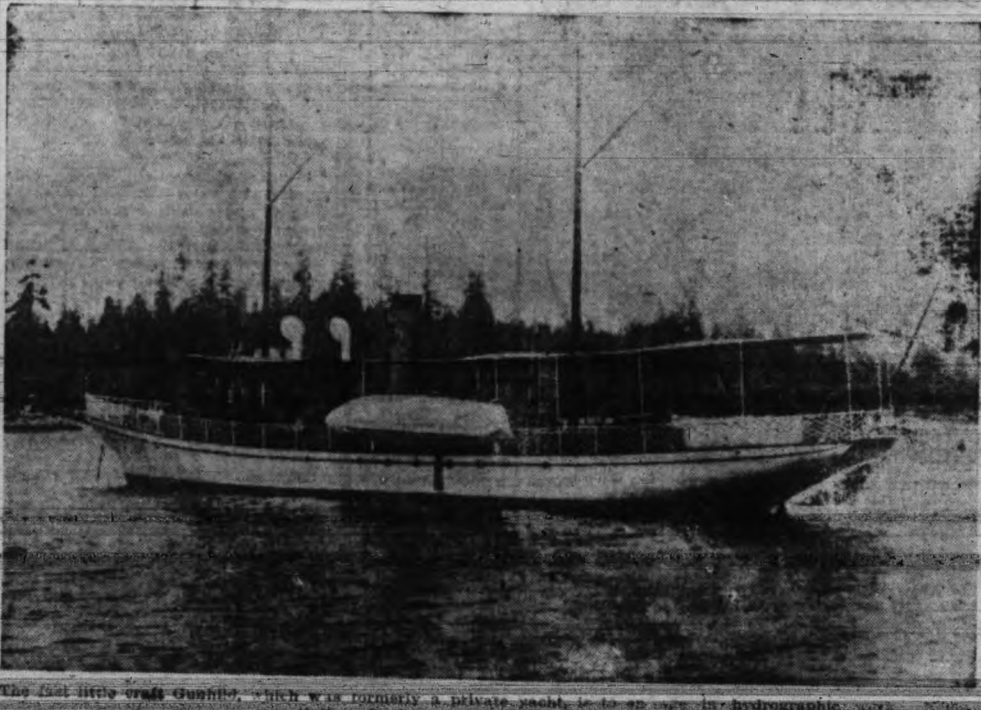

Canada Maru Spoken. Another trans-Pacific liner was spoken last night, the Canada Maru, Capt. Hori, of the Osaka Shosen Kaisha. She was in latitude 50.41 north and longitude 157.19 west at 7 o'clock on Saturday night. The Canada is due in on Friday, but with such bad weather prevailing on the Pacific it is too early yet to estimate her time of arrival here. She no doubt is having as bad a time as the Marama. The Canada has several hundred tons of cargo for Victoria and many steerage passengers.

Polemic on Her Way Here. R. P. Rithet & Company, agents for the Weir line, have been notified that the steamship Polemic, left Yokohama on December 31 and that she is expected to berth here on January 12. She is being hurried to the Sound in ballast in order to get here as soon as possible to aid in cleaning up the enormous shipments for the Orient which have accumulated at Seattle and other Puget Sound docks.

The Polemic was formerly the Cunard liner Albania. She is a twin screw steamship with a cargo capacity of approximately 15,000 measurement tons. She will load capacity shipments of flour, salt fish, hay, oats and general merchandise. The vessel arrived at Hongkong December 4 with general cargo from New York.

The British steamship Lord Derby, of the Waterhouse fleet, is expected in Seattle from the Orient on January 8. She will take from 800 to 2,000 tons of flour, 1,200 tons of salt fish, 300 tons of tinned salmon, 1,000 tons of box shooks, 400 tons of fertilizer, 40,000 feet of lumber and 350 tons of general merchandise. She will sail for the Orient about January 15.

## VESSEL PURCHASED BY THE GOVERNMENT

The little craft Gunhild, which was formerly a private yacht, is to be used in hydrographic work. Negotiations for her sale have just been completed.

## GOVERNMENT TAKES OVER THE GUNHILD

TRIM LITTLE YACHT FOR HYDROGRAPHICAL SURVEY

Official From Ottawa Inspected Her—Was in Fishery Service Last Summer

Negotiations have been practically consummated for the sale of the trim little steamer Gunhild, which has been lying in James Bay for several months, to the Dominion government for use in the hydrographical survey. The owners, W. H. Price and L. Camusa, are preparing to vacate the vessel and turn her over to the government. The price involved in the transaction has not been given out.

The Gunhild is to be outfitted by the government, and in the spring will be sent North to Dixon Entrance to conduct a survey of the waters about there. She will also be used to survey stretches of water which are too shallow to permit of the large service steamer Lillooet taking soundings. The Gunhild will relieve the Lillooet of much work, and thereby give the larger vessel an opportunity to carry out more extensive undertakings.

Ottawa Official Inspects Her.

Before the Gunhild was purchased by the Dominion government she was thoroughly tested, both her hull and her engines. J. Ogilvie, of the hydrographical survey, was sent from Ottawa to look for a vessel and he picked out the Gunhild. She was hauled out on the ways and her hull sounded, and it was pronounced as being exceptionally staunch. On Saturday afternoon the former yacht was taken out on a cruise in the straits and everything behaved beautifully.

The Gunhild was built in Tacoma for a prominent millionaire of that place. She was purchased by Vancouver people and last year Mr. Camusa and Mr. Price bought her. For several months in the summer she was engaged in the fishery protection service off the West Coast.

The Gunhild is a pretty vessel, having the fine lines of a yacht. She is equipped with triple-expansion engines and is an oil-burner. With fair conditions she can steam 12.4 knots.

The second of the Princess Maguina's big boilers was dropped into place on Saturday morning.

## TERRIFIC BLIZZARD DELAYS THE RUPERT

Steamer Three Hours Late Pulling Into Rupert—Also Got Into Southwest Blow

Running into a fierce blizzard when but a short distance from Prince Rupert on her last northbound trip, the G. T. P. steamer Prince Rupert, Capt. Barney Johnson, had to spend several extra hours feeling her way through the narrow channel before she finally crept up to her berth at the northern port. It was one of the worst snowstorms that the Rupert has encountered so far this year.

The last northbound trip was a dirty one throughout. When crossing Queen Charlotte Sound the Prince Rupert fell in with the fierce southwest gale which played havoc with shipping all along the coast. There was a heavy sea running and the Prince Rupert pitched and rolled heavily. Capt. Johnson said that the wind was fairly howling and the sea was bad.

When opening out from Grenville Channel into Chatham Sound the Rupert encountered the blizzard. It was 5 o'clock in the morning when the first flurry was met and from then on until the Rupert was moored at Prince Rupert she steamed through blinding snowfalls. It was impossible to see and the ship had to be slowed down.

The Prince Rupert brought south a large list of passengers, including 80 saloon and 40 steerage. W. Clancy, manager of the Bank of Montreal at Prince Rupert, arrived on his way to California for a holiday, and A. D. Martin, manager of the Ocean Falls Pulp Mills, came as far south as Vancouver.

When the Prince Rupert left Victoria at 10 o'clock this morning for Prince Rupert she carried a fair list of passengers, including the following, who embarked at this port: C. E. Mitchell, R. G. Strange, C. L. Johnson and Mrs. J. Mason Adams.

## HEAD LIGHTS

The fine American ship Erskine M. Phelps, one of the few modern windjammers now flying the Stars and Stripes, made the Golden Gate last week, 123 days out from Philadelphia. She brought a cargo of steel consigned to the United Steel Products Company.

### SOUTH AFRICANS WON EVERY GAME

Concluded Important Fixtures  
With Victory Over England  
by Score of 9 to 3

Twickenham, Eng., Jan. 5.—The South African Rugby team concluded its important fixtures Saturday by beating England by 9 points to 3, thus winning four international matches. The half-time score was 3 points each.

London, Jan. 5.—The following are the results of football games played yesterday.

**First Division.**  
Aston Villa 2, Manchester City 0.  
Bolton Wanderers 5, Woolwich Arsenal 1.  
Derby County-Sunderland, postponed.  
Liverpool 2, Bradford City 1.  
Manchester United 1, West Bromwich Albion 1.  
Middlesbrough 0, Sheffield Wednesday 2.  
Newcastle United 4, Oldham Athletic 1.  
Notts County 0, Everton 1.  
Sheffield United 2, Chelsea 3.  
Tottenham Hotspur 0, Blackburn Rovers 1.

**Second Division.**  
Barnsley 2, Leeds City 0.  
Burnley 5, Clapton Orient 0.  
Fulham 0, Grimsby Town 1.  
Hull City-Glossop, abandoned.  
Leicester Fosse 5, Bristol City 1.  
Preston Northend 0, Lincoln City 1.  
Stockport County 2, Notts Forest 1.  
**Southern League.**  
Queen's Park Rangers 2, Gillingham 0.  
Brentford 1, Norwich City 0.  
Northampton 2, Stoke 0.  
Bristol Rovers 2, Southampton 0.  
Brighton and Hove Albion 0, Coventry City 0.  
Millwall Athletic 4, Reading 5.  
Portsmouth 2, Crystal Palace 0.  
Exeter City 2, Merthyr Town 4.  
Swindon Town 2, Plymouth Argyle 2.  
**Scottish League.**  
Raith Rovers 0, Aberdeen 0.  
Airdrieonians 4, Queen's Park 5.  
Celtic 1, Partick Thistle 0.  
Hearts 3, Clyde 2.  
Falkirk 2, Dundee 0.  
Third Lanark 0, Hamilton Academical 0.  
Rangers 3, Hibernians 3.  
Morton 1, Kilmarnock 3.  
Motherwell 3, St. Mirren 1.

**Rugby.**  
Gloucester 13, Leicester 8.  
Llanelli 5, Cardiff 0.  
Several matches were postponed owing to inclement weather.

### WANDERERS TIED THE LAW STUDENTS

Exciting Rugby Match on Hard  
Dry Field Ended With-  
out a Winner

Only a foisted attempt to convert a try in the last moment of play deprived the Victoria Law Students of a victory over the Wanderers in the Rugby Union Saturday. The match was played at Oak Bay on a hard fast field and the play shot up and down the field from end to end so often that the score of 12-12 is probably the most satisfactory that could have been recorded.

Game Very Fast.  
Play was lightning fast and spectacular, plenty of running being possible on the fast-dried turf. The Law Students were tight in the scrum and were pushed back frequently on dribbles in the first half, the score at the end of that period being 3-0.

In the second half the shifty Students' back field braced up and by repeated long end runs supported the effective dribbling which the forwards commenced to bring into play.

Twice the Wanderers broke away for long rushes ending in tries but the play in this half was for the most part in the Wanderers' territory. Shires blundered in not converting the last try from a dead-on position late in the match for the Students.

F. A. Sparks refereed. The teams were: Law Students—Full-back, Boggs; three-quarters, Gallie, Scott, Ogden and Martin; halves, Morton and Shires; forwards, Monteith, McCallum, Ross, Milligan, McIlree, Simpson, Meredith and Bateman. Wanderers—Full-back, Fawcett; three-quarters, Day, Leonard, D. M. Grant and Hollywood; halves, Milne and G. C. Grant; forwards, Ackland, Chalk, Willis, Baum, Wise, Collinson and Beckton.

#### WEEK-END SOCCER.

**Intermediate.**  
North Ward 5, Fifth Regiment 2.  
Victoria West 3, Navy-Reservist 1.

#### LIVE BITS OF SPORT GOSSIP

McGraw will be with the Athletics in 1914. He is a pitcher who hails from Pueblo, Colo. His father has made an agreement with Connie Mack and he will report when his school days are over. He is only 18 at present, but stands 5 feet 11 inches and weighs 180. His first name is Robert, not John.

Welcome the name of citizenship to the Washington American League team, Senator, did not suit the Washington public and Nationals did not suit anybody else.

The home of the White Sox in Chicago will be enlarged by President back in the referee game again. Cow-

Comiskey so that there will be seats for 45,000 spectators next season. The new improvements will involve an outlay of more than \$50,000.

The National Hockey Association reserved all its players of last season then lost half of them to the Coast League. Next year the association will preserve the best ones and can the remainder. If this has no effect, they will stew the bunch the following year.

When one recalls that Magistrate Denison of Toronto, gave Tim Flood thirty days without option of a fine for taking a kick at a lowly umpire, it seems more advisable that Sprague Cleghorn should give the Queen City a wide berth next time Wanderers travel Westward.

One rejoices to see Russell Bowie back in the referee game again. Cow-

pled with Dunc Campbell, they can't be beaten.

Skene Roman and Ernie Russell should lead the goal getters of the N. H. A. a wide margin this season.

Bruce Ridpath appears to be losing his players faster than he signed them up, and he started the season with 22.

Add to list of hold-outs: Rube Mar-

quard, nationally known winter occupation, homecoming.

The Sprague Cleghorn affair in Toronto, according to eye-witnesses, was exceptionally brutal and cowardly. Cleghorn, ated while Lalonde was in a sitting position on the ice and crashed his stick down on the Corn-wall boy's dome with a full swing. We'd hate to take a chance with Mag-

istrate Denison and pulling stuff of that kind.

Ras. Murphy, manager of the Halifax Crescents, made the hockey bunch dig down and pay Fred Lake more money. He made Lake a good offer, which he was about ready to accept when the Ottawa club raised the ante.

The usual spring controversy may be expected, Washington has booked exhibition games with the New York Giants. However, John McGraw swears he will fill the dates this time.

Indianapolis will open its exhibition season at home on April 3 with the Philadelphia Athletics, and the Chicago Cubs have also been booked.

Harry Cameron, the Port Arthur boy on the Toronto pro. defence, looks about the best player on the team and

## SURPRISES IN THE EASTERN LEAGUE

Quebec Beaten at Home by  
Tucumseh—Ottawa and  
Toronto Also Won

Montreal, Que., Jan. 6.—Numerous were the upsets which occurred in the N. H. L. Saturday night, all three games furnishing a rude shock to the form players. Perhaps the most notable upset of the evening was when the Toronto Wanderers handed out a beating to the Montreal Wanderers at the Queen City, by a score of 5 goals to 3.

**Champions Won.**  
The Tucumseh threw a jolt into the Stanley Cup holders at the Ancient Capital when they also won by a score of 5 to 3. Ottawa came down from the Capital and downed the hitherto unbeaten Canadiens by a score of 7 to 2. At the present time the N. H. A. race is in a topsy-turvy condition, and after Saturday's match a little is difficult to pick the Stanley Cup winners at this early date.

### OTTAWA COLLEGE WON FROM MCGILL

New York, Jan. 6.—Ottawa College defeated McGill University in a fast hockey game by a score of four to three. Nagle played a notable game, scoring two of Ottawa's tallies. Rankin, a 200-pounder, towered above everyone else on the ice, and was a veritable bulwark for McGill. Despite his enormous size, Rankin was fast and his shots had accuracy and terrific drive.

### STILL AFTER MURPHY.

Toronto, Jan. 6.—Con Jones was in Hamilton on Saturday, and left for Ottawa that night. There has been no meeting with a view to a lacrosse commission, though he did confer with the local D. L. A. magnates. The Toronto men are anxious to form the commission, but they balk at allowing the N. L. U. to come in except as a minor or an amateur league. Con is still after Jimmy Murphy to run a club at Victoria.

### Arcade Bowling Alleys

A meeting of the City Bowling League will be called Jan. 6, at 8 p. m., to draw up a schedule for same.

J. O. PARLIAMENT.

## SPORTING NEWS (CONTINUED)

### WEAKENED CHAMPIONS LOST BIG SCORING HOCKEY FEATURE

Vancouver Finished Strong and Out-Scored Paterson Cup-holders 10 to 5—Westminster Team Weakened by Absence of Lehman—Griffis and Johnson in Form

Vancouver, Dec. 6.—Had Hugh Lehman been able to take his place in the nets for the champions there might have been a different story to tell, but the Royals' star net guardian is still under the weather. Handicapped with a substitute goal-tend, New Westminster were beaten by Vancouver ten goals to five in the week-end Coast League fixture at the Terminal City. The score at the end of the first period was four to four, the Royals having the better of the play. Vancouver rolled in five goals in the second session while New Westminster were bagging but one tally. The Millionaires banging through the only score of the final period. Vancouver finished by far the stronger team, but Lehman's absence from the Royal City nets, with the resultant easy goals that were scored upon Smith, broke the Royals' attack.

**Champions Badly Weakened.**  
Vancouver deserved to win, if the individual efforts of St. Griffis and Fred Taylor are taken into consideration, this pair giving a spectacular and hair-raising display of speed and stick-handling. The former scored three goals and was responsible for a couple more, while the Cyclone, going on the ice against the doctor's orders, played phenomenal hockey, getting two goals and out-skating the Royal City line repeatedly. New Westminster, however, did not show the same confidence and when Charlie Tobin retired from the game because of a broken blood vessel in his knee, the champions weakened terribly. It was a tough break to have Tobin disabled, especially after the great start that the Paterson cup-holders had made. With Lehman and Tobin off, it was only a question of how large a score Vancouver would run up.

**Team Play Improves.**  
New Westminster forwards displayed woeful inaccuracy in their shooting, and repeatedly missed a good chance

by driving the puck at random. Their combination, however, did not nearly equal the brand displayed by Vancouver and this also cost them several goals. Individual effort appears to be the whole tip for the Royals and it was common to see three men skate down abreast only to see the puck go to the other end because of selfish holding of the rubber. Vancouver, on the other hand, has developed combination to the highest stage. Jack McDonald and Carl Kendall manipulate the disc as if it were but play, while Harris and Taylor also fit in perfectly. As a duo of goal-getting defence players you have to hand it to Frank Patrick and St. Griffis. They help out their line at every opportunity. Allan Parr, in the nets, was bad in the first period, but recovered his eyesight and could not have been improved upon in the second and third sessions.

**Johnson Has Come Back.**  
Even in defeat the Royal City fans have something to gloat over and that is the return of Moose Johnson to the form which made him the idol of the Coast League fans last winter. Johnson skated and stick-handled his way through the Vancouver team time and time again, getting one goal after a beautiful rush, while his defence playing and the manner in which he stuck to the final whistle shows that he has reached his top form. Kenn Mallen and Charlie Tobin were the pick of the champions' line, while Ed. Oatman also performed well. Ranny McDonald was inclined to be too troublesome to be effective.

Many penalties were handed out, a fight between Oatman and Kendall in the second period giving this pair a ten-minute rest, while Ranny McDonald was benched for five minutes for rapping Cyclone Taylor over the head. The body checking was hard, the high scoring keeping the players at fever heat throughout.

### REMARKED ON THE SIDE

**Vancouver Takes Lead in Coast Race.**  
Frank Patrick's Vancouver seven is going right after the championship of the Pacific Coast Hockey Association, judging from the play of the Millionaires in their games to date. The septette added another win to their list on Saturday night at the Terminal City when they defeated the champion Royal City team, ten to five, in a contest that teemed with sensational hockey. Both teams have a pair of defence men who can rush and score with the best of them, and with lightning skaters on the attack the game did not lack for excitement. New Westminster missed Hugh Lehman greatly, the team failing to show the same confidence in Happy Smith that they display when Lehman is between the poles. To add to their tale of woe, Charlie Tobin, the pick of their attack, got spiked in the knee and had to retire, another substitute entering the game. This was too much for the Royals and they were nowhere in the final session.

**Millionaires Are the Team to Beat.**  
Trotting out a galaxy of hockey stars that cannot be equalled by any other team manager on the continent, Manager Frank Patrick has gathered together an aggregation of hockey players that appears to be a veritable "juggernaut," and it is this septette which the Senators must beat if they are to carry off the Coast League honors this winter. Take their team, man for man, and every department is as strong as possible. Parr in goal is playing even should they win these, they have no chance to catch the Wards. The teams will now turn their attention to the Island League and it is just possible that an intermediate division of this organization will be formed. The senior division opens on Saturday next and a meeting has been called to set the inter-mediate in line.

**Chance Will Manage the Yankees.**  
Though Owner Frank Farrell and Frank Chance have not yet come together on terms for next season, the one best bet is that the former manager of the Chicago Cubs will pilot the New York club through the 1913-American League season. For several years Farrell has been excusing his club for their weak showing because of a lack of manager. The Yankees have been a second division club for many moons, and the magnates let this condition exist simply because Farrell did not have a leader. Now, however, he has the opportunity of grabbing off the greatest playing manager of modern baseball, and should he fail to agree upon terms, will undoubtedly be called to task by the National Commission or the American League. Chance appears willing to handle the Highlanders from the bench.

Best, Taylor at rover, outshines any other player in that position in Canada to-day. Kendall is showing grand form for a youngster breaking into fast company, while Jack McDonald is easily the best left wing in the game. Harris is improving fast and has it on them all when it comes to back checking. Add to that combination a little team play, and you have "some" hockey club.

### VANCOUVER MAGNATE

### BOOSTS MIKE LYNCH

Bob Brown Thinks Victoria's  
New Manager Will Have a  
Real Ball Club This Summer

Vancouver, Jan. 6.—During the past week the Vancouver magnate grabbed four new players. The quartette included Tombeck, a pitcher from the California Winter League, who was uncovered by "Kitty" Branshear, and who says the big right-hander is a comer; Bob Wells, former centre fielder of the University of Washington team, who will join the pro ranks this year; Kallio, a pitcher from Astoria, Ore., and Ingram, an infielder who had been from

somewhere down in Idaho. President Brown believes he has a big center in Wells. The youngster was the star in inter-collegiate circles and is a better man than Ten Million or any of the other U. of W. players who are now in professional company.

President Brown looks for Victoria to give the others a battle next season, and believes Mike Lynch, with proper support, will keep the Bees up in the race from the start. "Where's a lot of good baseball in Mike, and I am glad he will remain in this league."

### KIBBLE RELEASED.

Cleveland, Ohio, Jan. 6.—Third baseman Kibble, who was purchased by the Cleveland American League club, last season from the Portland Northwestern League team, has been released to the New Orleans club of the Southern League.

Warm Woolen and Mreka wool-lined gloves can be purchased at J. N. Hays, Ltd., 614 Yates Street.

### WARDS CAPTURED INTERMEDIATE LEAGUE SOCCER TITLE ON SATURDAY

Victory Over Fifth Regiment by Five to Two Meant Championship for the Blue and White Eleven—Best Game of the Year at Beacon Hill

Football enthusiasts who went to see the game at Beacon Hill between the Wards and the Fifth Regiment, which was won by the Wards 5 to 2, returned home satisfied that they had seen probably the best game played in the intermediate this season.

The game was fast from start to finish, both teams fighting hard for the honors. It looked as though the Fifth were going to win as they notched the first goal, but afterwards the Blue and Whites with their kick and rush soon had the soldiers worried. It looked bad for the soldiers at times, but the defence of Sargison and Ward was almost invincible, and they cleared wonderfully. The Wards' forward line was very fast, and their combination was good. Their goals were tallied by the centre of the wing players and the inside forward's shooting. Speechley, outside left for the Fifth, scored their second goal, but they could not score again before time. About ten minutes before time McGregor, of the Wards, and Dutot, the Fifth's goal-keeper, were put off after a mix-up in

the goal. Ward took Dutot's place between the posts and saved many shots. Lane tallied the fifth goal for the Wards, and neither side could score again before time was called. McGregor, Cummings, Lane, and Pike played well for the Wards, while Ward, Sargison, Milne, Speechley and McKay were the stars on the Fifth line-up. Picking refereed splendidly. The teams lined up as follows: North Ward—Goal, Menzies; fullbacks, H. Ord and J. Ord; halfbacks, Baker, Tunnicliffe, and Pike; forwards, McIlmoy, McDougall, McGregor, Lane and Cummings. Fifth Regiment—Goal, Dutot; fullbacks, A. Sargison and Ward; halfbacks, Norris, Kroeger and Smith; forwards, Alcock, R. Milne, Flidsend, McKay and Speechley. Winsby took Milne's place at half time when the latter was injured.

The game scheduled between Y. M. C. A. and the Foresters was won by the former by default.

Neither team turned out in full for the match between the J. B. A. A. and Coronas, so the game was called off.

### BOWLING MEETING

### CALLED TO-NIGHT

Eight Teams Will Be Represented in City Bowling League

Eight teams will be represented at to-night's meeting of the City Bowling League, which is to be held at the Arcade Alleys. If possible a schedule will be drawn up. Officers will be elected and a date set for the opening. An important announcement with regard to a championship bowling trophy will also be made.

R. S. Cooke won the daily prize at the Arcade alleys on Saturday with a total of 209.

A manufacturers' bowling league, composed of teams from the mercantile houses of the capital, is now being talked of.

### LEAGUE STANDING.

	Won.	Lost.	F.	A.	Goals
Vancouver	2	1	27	15	
Victoria	2	1	14	14	
Westminster	2	3	11	22	

Next match—Thursday, Jan. 9, Westminster at Victoria.

### INDIVIDUAL SCORING.

	Games.	Goals.
Dunderdale, Vic.	2	7
Griffis, Van.	4	7
J. McDonald, Van.	4	6
Harris, Van.	4	4
Kendall, Van.	4	4
Tobin, Van.	2	3
R. McDonald, West.	3	3
Gardner, West.	3	2
Rowe, Vic.	3	2
Small, Vic.	3	2
Mallen, West.	3	2
F. Patrick, Van.	4	2
Taylor, Van.	4	2
Ulrich, Vic.	1	1
L. Patrick, Vic.	3	1
Poulin, Vic.	3	1

### INTERMEDIATE LEAGUE.

There is a movement on foot to form an intermediate division in connection with the Island League, and all clubs interested are requested to send representatives to a meeting to be held in Appleby's pool rooms on Wednesday, January 8.

CHARLIE TOBIN

New Westminster wing star. He had to retire from Saturday night's game because of a broken blood vessel in his knee.

### JAMES BAY OFFICIAL SAYS GOODWIN HOLDS AMATEUR CARD

Spokane Middleweight Alleged to Have Boxed at Calgary Preliminary—Will Never Box Under Referee Sykes Again—Goodwin Denies Charges

"Beyond the fact that Al. Goodwin boxed for the Spokane Athletic club at the Diggins Tournament, held at P. N. A. card and signed an amateur declaration in Victoria and joined the James Bay club as such, we have no further record of his ring record," stated an officer of the J. B. A. A. to the Times this morning with regard to the allegation by Vancouver sport writers that Goodwin is a professional. The Terminal City sportsman state that Goodwin took part in the preliminary to the Burns-Rickard fight at Calgary last August. This, however, is denied by the boxer himself and the James Bay view of the case is stated above.

### No More Referee Sykes.

Vancouver papers are devoting a great deal of space to the "holler" which the Victoria club raised against Referee Sykes. They claim that Instructor Davies, of the J. B. A. A., is in wrong when he complains against that official's ruling. Just where the J. B. A. A. stand in the matter may be judged from the statement of Manager Davies that he will not allow his boys to enter the ring again with Sykes as the third man. Knowledge of amateur boxing is looked for from all officials, and Referee Sykes failed to show even the slightest knowledge of the manly art, according to the James Bay boys.

### SET SALARY LIMIT.

National Baseball Commission Will Consider Salary Limit for Class "A" Leagues.

Cincinnati, Ohio, Jan. 6.—The National Baseball Commission found much business before it when it began its annual meeting here to-day. One of the most important matters was the salary limit in class "A" leagues. A special committee from the National Association of Professional Baseball Leagues, composed of M. H. Sexton, president of the National Association; Edward Harrow, president of the International League, and President Justice of the Central Association, was named to bring this matter before the commission. The annual report of Chairman August Herrmann showed that the commission transacted more business last year than in any year since it was formed. It was expected that Herrmann would be re-elected chairman and that John E. Bruce would again be named secretary.

### CANADIANS WON.

Calgary Poloists Victors at San Diego Tourney.

San Diego, Cal., Jan. 6.—In a game marked by brilliant play at Coronado yesterday, the Canadians defeated the Pasadena team by a score of 9 to 3. Accurate drives by C. A. Critchley, a former West of England player, now a member of the Canadian team, did much to gain the lead which the men from Calgary maintained throughout the game.

The lineups were: Pasadena—Robert Neustadt, 1; Reggie Weiss, 2; Harry Weiss, 3; Carleton Burke, back. Canadians—R. Carle, 1; K. G. Snowden, 2; C. A. Critchley, 3; H. Robertson, back. Snowden was the high score man, driving six of his team's goals.

Semi-Annual Sale **\$2.25**

**Spence, Doherty & Co.**  
HATTERS AND FURNISHERS "To Men Who Care"

Exclusive Victoria Agents for Royal Tailoring

1214 DOUGLAS STREET

## Y.M.C.A. OF CITY AFTER SECRETARY

FRED WITHAM ASKED TO  
TAKE OVER THE POST

Will Give Answer Within Ten  
Days—Has Had Long  
Career With Association

This afternoon at a special meeting of the directors of the Y. M. C. A. it was decided to ask Fred Witham, general secretary of the association at Walla Walla, to become secretary of the local institution in succession to E. M. Thomasson, who resigned several months ago.

Since the departure of the last secretary the work has been ably carried on in the city by George Bell.

For some time past the directors have been casting about for a suitable man for the post and this week-end Mr. Witham was invited to come and look over the building. He did not give out any definite statement as to whether he would accept the offer of the administration or not, but has promised to give them an answer within ten days.

Mr. Witham is of English birth, but has spent most of his working years in the United States. He was specially educated for Y. M. C. A. work at McMinnville College, Oregon, and has since worked on posts connected with the association in Santa Barbara, Billings, Mont.; Boise, Idaho; and Portland, Ore. As has been stated, his present position is at the head of the association branch at Walla Walla. He is about forty years of age, possesses unique social gifts and is a man admirably adapted for the post of secretary of such a large branch as Victoria has become.

ENTERTAINED THEIR FRIENDS.

Members of Victoria Branch of Order of Eagles Also Installed Officers.

To add to the pleasure of New Year's Eve the members of Victoria Aerie No. 12, Fraternal Order of Eagles opened the doors of their hall to their families and friends. Dancing and song were indulged in and enjoyed by all present. A buffet supper was served throughout the evening. Professor Heaton's orchestra provided music for the dancers.

At 10.30 Worthy President J. J. Wachter called the aerie to order and the officers elected for the coming year were installed by Past Worthy President T. M. Brayshaw and Grand Conductor J. R. Bradley, as follows: J. J. Wachter, W. P. Pres.; J. L. Hackett, W. Pres.; N. K. Nelson, W. V. Pres.; H. E. Graham, W. Chap.; T. Krumpoltz, W. Cond.; J. J. Wachter, Fin. Secy.; J. M. Hughes, Rec. Secy.; D. T. Burghart, Treas.; Jan. Preston, I. G.; P. Christensen, O. G.; W. H. P. Sweeney, W. Blair, W. B. Smith, Trustees; Dr. Geo. Hall, aerie physician; W. A. Dulvey, aerie musician.

Past President J. M. Hughes, on behalf of the members of the aerie presented the retiring president, J. J. Wachter, with a magnificent past president's jewel in appreciation of services rendered during his term of office.

"BILLY" HORN HAS BECOME PURSER OF THE MONTEAGLE

Many shipping men took the opportunity of boarding the C. P. R. liner Monteagle yesterday and congratulating W. H. G. Horn upon his promotion to the important position of purser.

Mr. Horn has been five years in the C. P. R. trans-Pacific service, and prior to that he was assistant purser on the Aorangi on the Australian run.

## PAY PARTING TRIBUTE TO DECEASED SEAMAN

Victoria Shipping Men Have  
Wreath Placed on Casket of  
Capt. Anderson at Tacoma

Victoria shipping men were among those who paid their last respects to one of the most popular and oldest masters on the Pacific coast on Saturday afternoon. The funeral of the late Capt. O. A. Anderson, who was drowned when he missed his footing on the ladder leading up the side of the steamship Setos, lying at Port Townsend, and plunged into the water, took place at Tacoma and among the many beautiful floral tributes which covered the casket was a wreath from Victoria shipping men.

The late Capt. Anderson at the time of his demise, was engaged as Sound pilot for the Kosmos line. He was just joining the Setos to take her to Seattle, when death overtook him. Attempts were made by the crew to rescue Capt. Anderson, but all were unsuccessful. Many of the seafaring and shipping men were at the funeral.

Capt. Anderson was born in Norway in 1842, and went to sea at the age of 13. He continued in deep-water ships in various parts of the world until 1882, when he reached Seattle, and joined the Oregon Railway and Navigation Company's steamer Welcome. For ten years he remained in the service of that company, and among the vessels he commanded were: Geo. E. Starr, Emma Hayward, Olympian, Alaska, North Pacific, Idaho, T. J. Potter, Sehomo, Hassalo and Victoria. When the Victorian and Olympian were operating between Victoria and Seattle Capt. Anderson was master of them. In 1892 Capt. Anderson was appointed superintendent of the Puget Sound drydock at Quartermaster Harbor.

COLD IS GENERAL.

Southern California Has Snowfall—Coldest Day in Months.

Early this morning snow began to fall all over this province, and about an inch covered the ground when the business men of the city trooped to their work. The cause of it is that the cold wave which has been experienced to the northward, has moved south and has reached even as far as Southern California, where the country of sunshine and winter orange groves is experiencing the first bitter frost of many moons.

Yesterday was the coldest day for twelve months in Victoria, no less than two degrees of frost being recorded. Vancouver had an exactly similar amount.

PROSECUTE MOTOR OWNERS.

Many Have Neglected to Obtain Their New Licenses for 1913.

There is still a large number of automobile licenses for 1913 not called for. The old licenses expired on December 15 and the Provincial police are preparing to prosecute people who have not made the exchange. The fee for an automobile license in this province is only \$10, but owners who employ chauffeurs must have driver's licenses for such. Owners who carry passengers or freight for hire must also have driver's licenses. These cost \$5.

Changes in these regulations are expected for next year, the Attorney-General having intimated that amendments to the Act will be introduced at the coming session of the Legislature.

Provide Yourself with a warm Overcoat. Prices very much reduced at the Red Arrow Store's January Sale. J. N. Harvey, Ltd., 614 Yates Street.

## LOCAL NEWS

Court of Revision.—The Spanish court of revision on the municipal voters' list was held this morning, and the 1913 list approved for the election next week.

School Reopens Wednesday.—The public schools should have opened today but owing to the convention of the Coast Teachers' Institute, the department has extended the date until Wednesday.

"A Business Founded Upon Honor."—A record of eighteen months past in Victoria, justifies the motto. You will receive honest treatment if you come to me with your eye defects. My prices are always very reasonable, although the glasses I furnish are of highest quality. Frank Clugston, Optician and Optometrist, 554 Yates street, corner Douglas, Room 1.

B. C. Fruit Growers.—The directors of the B. C. Fruit Growers' Association met in conclave in the new hall at the Empress hotel this morning. A general meeting of the association is being held at the same rendezvous, beginning at 3 o'clock this afternoon. At this morning's opening of the conference there were about thirty present.

## LABOR MEN TAKE PLATFORM TO-NIGHT

Candidates for Aldermen and  
School Trustees Hold  
a Meeting

The labor candidates for aldermen and school trustees commence their campaign to-night when a meeting will be held in the North Ward school at 9 o'clock. The mayoralty candidates have been invited to attend and speak. However as Mayor Beckwith will be at the city council meeting it will be practically impossible for him to undertake more work.

The ex-mayor has extended an invitation to Mr. Beckwith to meet him at his meetings at which the mayor will be given the same time to reply as the candidates takes himself. Mr. Morley says he does this so that the mayor may have full opportunity to meet him on even terms and answer any of his statements.

Alderman Cuthbert announces his intention to stand for alderman at the forthcoming election, making the fifth member of the present board who is offering himself for re-election.

Ex-Alderman Bragg, who was announced as a candidate on Thursday, issues his address to the electors today. He was a member a few councils in the nineties, two for a full year, and the others for parts of a year following by-elections. Mr. Bragg is a well-known resident of Flanagan street. Mayor Beckwith speaks at the Oakland fire hall, the scene of many warm political encounters, on Wednesday. He will be at the North Ward school on Friday, and on Friday at South Park school.

FORTY-ONE NEW BARRISTERS.

Graduates Admitted to Profession by Mr. Justice Gregory To-day.

Forty-one graduates of the Law Society of British Columbia were called to the bar and sworn in before Mr. Justice Gregory this afternoon in the Supreme Court. The benchers of the society sat all this morning considering the applications and at 1 o'clock this afternoon issued the calls to the graduates.

Each applicant was presented to Mr. Justice Gregory by a barrister, and the oath was then administered. His lordship congratulated the young men on entering the profession of law.

TWO CLUSTER LIGHTS BROKEN.

Automobile Struck One Early Sunday Morning—Police Are Investigating.

Two cluster light poles in View street, one opposite the Victoria Hat Works, and the other at Cook street, were broken off at the base on Saturday night on Sunday morning. A man reported to the police that he had seen an automobile hit one of the poles, but no particulars have been received so far. The recent action of the city in ordering the police to prosecute such offenders is enabling the detective department to investigate the matter.

Mrs. E. Adam, of this city, has left on an extended visit to the east.

Miss Ewald, of Seattle, who is on her way to Southern California, is the guest of Mrs. G. F. Duffield, 993 Monterey avenue, for a week.

## MEET AT MONTREAL

New York, Jan. 6.—The executive committee of the American Bar Association, including members from all parts of the United States, has selected Montreal, Canada, as the place of the next annual meeting in September. This selection was made in recognition of repeated courtesies extended to the association by the Bar in the Provinces of Canada, which has often sent substantial delegations to the meetings of the American Bar.

## REFUSES TO TALK.

London, Jan. 6.—Sir Max Aitken, when seen to-day by the Canadian Associated Press declined to either confirm or deny the report that he has associated himself with the National Hydro-Electric Company, which is said to embrace a huge scheme above Montreal.

# THE GOOD THINGS ARE GOING EAST

THE EVENING CHIT-CHAT  
By RUTH CAMERON

There are different modes of obligation and different avenues to our gratitude and favor. A man may lend his countenance who will not part with his money and open his mind to us who will not draw out his purse.

How many ways are there in which our peace may be assailed besides actual want? How many comforts do we stand in need of besides meat and drink and clothing?—Hazlitt.

All the help and service that is given to others in this world is not given wittingly and deliberately.

Many people confer benefits on those about them in ways they know not of.

Whoever creates a beautiful thing of any sort, even though he creates it primarily for his own satisfaction, gives pleasure to others, and since pleasure is what we all seek so eagerly, is not that, after all, as valuable a gift as money or food or drink?

Some years ago I was sent to interview a woman who was running the school board. I was ushered into her living room to wait for her. That room made an impression on me that I shall never forget. It was a room into the furnishing of which had evidently gone infinite care and thought and taste. There was an all pervasive sense of harmony and beauty about it which not even the most casual visitor could miss. It seems to me that the woman who created that room, by so doing, conferred as great a benefit upon all who enter it as if she gave them some tangible gift. For myself at least, I know that even now I still think of the hour I spent in that room with a sense of pleasure. Moreover, it gave me higher ideas of taste and beauty than I had ever had before. Were not these as splendid benefits as any more concrete services she could have rendered me?

It is sometimes considered frivolous for women to cultivate their natural beauty and enhance it by becoming clothes. To my mind the woman who does this is doing a good work, if she does not concentrate on it to the exclusion of higher duties, because she is conferring a benefit on mankind. And, mind you, I mean mankind to include womankind. I know that I have often wished to tell a pretty woman in a pretty gown how much I enjoyed looking at her, and I have heard other women express the same unselfish appreciation of their sisters' beauty.

Nor is the creation of cultivation of beauty the only way in which we unconsciously benefit our neighbors. A strong, serene personality is a continual gift of strength and peace to all who come into contact with it. A well ordered home, where peace and serenity reign, is a blessing to all who come into it. In a thousand such ways we may unconsciously bless and benefit others.

Indeed, if we make our own lives as fine and strong and beautiful as we know how, we cannot help helping others.

Ruth Cameron

## GRIT

By GEORGE MATHEW ADAMS

Grit is getting the brain and heart and soul of a man fused for a concerted, white-hot attack on Failure.

Grit is what grasps at the raw edge of Victory and chews it to the point of easy digestion.

And Grit wins—it gets there! Grit started the action of the world—and has moved things ever since.

Grit lost—all is lost.

Grit is what keeps us from becoming beggars—helps us to shake hands heartily with Progress. Grit is the maker of Masters that master all things. Grit drives the stakes that point the path. Grit is what keeps a fighting man from going "stale."

Grit "brings home the bacon."

Grit makes the way for the Korker and the Door. Grit is the pivot on which the aims and ideals and hopes of fighters hang steadily unto Success.

No sweat, no sweat—no Grit, no Glory.

So—get Grit!

## SHE KNEW THE SYMPTOMS.

There is a certain bright English actress who comes over here every year or two to play an engagement, says the Saturday Evening Post. Among her admirers on this side is a middle-aged theatrical man of a serious turn of mind. He is courtly, but has been called tiresome in conversation. One afternoon at her suite in a New York hotel the sprightly lady was ordering a dish of tea for a couple of newspapermen. The telephone bell rang, and the hostess answered the call.

"Yes," she said, "this is Miss Blank. Who? Oh, Mr. Blink calling, is it?" Then, in a tone of weary resignation, "Very well, send him right up." She hung up the receiver and turned to the newspapermen.

"Blink," she said, "you'll have to look me away. My sick headache is coming on."

A Bedouin marriage does not take much time. The bridegroom kills a sheep and spills the blood on the sand of his father-in-law's threshold, and the wedding is over.

## PASSING SHOW

Empress Theatre.

George Leonard and Margaret Meredith offer this week at the Empress theatre an amusing sketch entitled "The Maid and the Meddler." The scene shows the clear stand in a modern hotel lobby with "The Maid" behind the counter, and the Meddler, an old rounder, admirably portrayed by Mr. Leonard, is seen leaning against the counter. Mr. Leonard sings a recitative song, "The Golden Days of Old," and Miss Meredith is heard in "Take Me to the Cabaret," and other melodies. Both dance. Marie Stoddard offers a character song and dance number. Some of her songs are "A Little Street in Heaven," and a new version of "When I Get You Alone Tonight." She gives amusing imitations of various vaudeville characters.

A triple voiced phenomenon, Gilbert Losee, sings in three voices with equal facility. He sings as a baritone, soprano or bass. His humorous parody of the bass solo, "Asleep in the Deep," and yodel songs and parodies are features. Miss Paulisch is a violin virtuoso who has had a long experience in concert work, and she offers a musical treat. She was heard in Victoria last in concert, and will be remembered by local musical people. Les Adlers are a clever couple, a man and woman, who do most of their work on the Roman rings. Gaumont's animated gazette is a feature of the twilight pictures.

Majestic Theatre.

Another feature programme will be exhibited to-day and to-morrow. "The Red Man's Honor" is a romantic tale of the border. This film marks the first time in the history of the moving picture business that a typical Indian story, perfect in every detail, has been produced in Europe and presented to the Canadian people. There are two thousand feet of film showing the operations of hate, love, treachery and also the honor of the red man. "A Cry for Help," biograph feature, is very dramatic. In "While She Powdered Her Nose," a young woman takes so long to powder her nose and beautify herself that her beau, who is waiting for her, meets another girl, and falls in love with her. When she gets through the young man is married and she accepts the first fellow who comes along. Everybody will have a chance to see Lillian Walker powder her nose and see a good comedy at the same time.

They have a genial way of announcing deaths at the Antipodes. Here are the opening sentences of an obituary notice that appeared in a recent issue of an Australian newspaper: "David Hay Dalrymple is now humping his swag among the stars. He died at the age of seventy-two. His early career doesn't matter much, for he was just the usual kind of business man, mayor, etc. The day of his greatness commenced when Hugh Nelson made him Secretary for Public Ignorance in 1895."

HEINTZMAN & CO. LTD.

When Better Pianos Are Built, Heintzman & Company Will Build Them."

## TONE

IF the characteristics, defining the quality of a pianoforte Tone is, first and foremost, the most vital; in the production of this integral feature lies the whole science and art of modern pianoforte construction. No matter how perfect the instrument in other respects, it is by the Tone, above all else, that the musical connoisseur estimates and judges the worth of a piano.

Ye Olde Firme of Heintzman & Company have been building pianos for sixty-two years—they know what Tone is—and in their pianos you get that Tone.

## ELECTION OF SCHOOL TRUSTEES.

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Municipality of the District of Oak Bay, that I require the presence of the said Electors at the Municipal Hall, Oak Bay, on Monday, the 13th day of January, 1913, at 12 o'clock noon, for the purpose of electing two persons as members of the Board of School Trustees.

Any person being a householder in the School District, and being a British subject of the full age of twenty-one years and otherwise qualified by the Public Schools Act to vote at an election of School Trustees in the said School District, is eligible to be elected or to serve as School Trustee.

## THE MODE OF NOMINATION OF CANDIDATES SHALL BE AS FOLLOWS:

The Candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of this notice and 2 p. m. of the day of the nomination, and in the event of a Poll being necessary, such Poll will be opened on the 13th day of January, 1913, at the School House, Oak Bay, at 9 a. m. to 5 p. m., at which time and place each elector who is duly qualified to vote for Reeve will be entitled to cast his vote for two candidates for the members of the Board of School Trustees, but may only cast one vote for each candidate, of which every person is hereby required to take notice and govern himself accordingly.

Given under my hand at Oak Bay, B.C., the 6th day of January, 1913.  
HENRY F. PULLEN, Returning Officer.

Corporation of the District of Oak Bay.

## MUNICIPAL ELECTIONS.

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Municipality of the District of Oak Bay, that I require the presence of the said Electors at the Municipal Hall, Oak Bay, on Monday, the 13th day of January, 1913, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Reeve and Councillors.

## THE MODE OF NOMINATION OF CANDIDATES SHALL BE AS FOLLOWS:

The Candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and 2 p. m. of the day of the nomination, and in the event of a Poll being necessary, such Poll will be opened on the 13th day of January, 1913, at the School House, Oak Bay, at 9 a. m. to 5 p. m., at which time and place each elector who is duly qualified to vote is hereby required to take notice and govern himself accordingly.

THE QUALIFICATION FOR REEVE shall be his being a male British subject and having been for the three months next preceding the day of his nomination the registered owner in the Land Registry Office, of land or real property situated within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll, of five hundred dollars or more over and above any registered mortgage or charge, and being otherwise duly qualified as a voter.

THE QUALIFICATIONS FOR COUNCILLORS shall be his being a male British subject and having been for the three months next preceding the day of his nomination the registered owner in the Land Registry Office, of land or real property situated within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll, of two hundred and fifty dollars or more over and above any registered mortgage or charge, and being otherwise duly qualified as a voter.

resided within the Municipality for the space of one year or more immediately preceding the nomination, and who is assessed for five hundred dollars or more on the last Municipal or Provincial Assessment Roll, over and above any registered mortgage or charge, or being a homesteaded, lease from the Crown, or pre-emptor, who has resided within the Municipality for a portion of one year immediately preceding the nomination, and who, during the remainder of said year, has been the owner of said land, of which he formerly was a homesteaded, lease from the Crown, or pre-emptor, and who is assessed for five hundred dollars or more on the last Municipal or Provincial Assessment Roll, over and above any registered mortgage or charge, and being otherwise qualified as a voter.

Given under my hand at Oak Bay, B.C., the 6th day of January, 1913.

HENRY F. PULLEN, Returning Officer.

## FOR ALDERMAN

TO THE RATEPAYERS OF THE CITY OF VICTORIA:

Ladies and Gentlemen—  
I beg to announce myself as a candidate at the municipal elections and respectfully solicit your votes and influence.

I believe that my record both as a citizen and as one who has had previous long experience in civic administration will bear the closest scrutiny. It was my privilege to serve as alderman for four years—1892-'3-'5-'7—and during that period I occupied the important posts of Chairman of the Finance Committee, the Electric Light Committee, and also of the Market Committee. I also served on the Board of Fire Wardens. I feel that my experience justifies me in believing that if elected on this occasion I can render you excellent service at the Council Board.

I have the honor to remain,  
Ladies and Gentlemen,  
Your obedient servant,  
E. BRAGO.

## ERNEST T. HOOLEY HAS LEFT PRISON

SPENT NINE MONTHS AT WORMWOOD SCRUBS

Story of Millions and the innumerable Scheme That Led Booster to Jail

Ernest Terah Hooley, the financier, has been released from Wormwood Scrubs prison. He was met by a friend in a motor-car, and the release was effected so quietly that nothing was known of it till the next day.

Hooley was sentenced to twelve months' imprisonment in the second division on February 10 last for fraud, and secured the usual three months' remission of his sentence for good conduct. Hooley's health was not good in prison, and a great part of his time was spent in hospital. This did not mean necessarily confinement to bed, but it relieved him of hard tasks. In prison he was a general favorite. He was chief also in the chapel choir.

Hooley was indicted for obtaining from George Leech Tweedle, a young mechanical engineer, of Rochdale—who had inherited a fortune of £15,000—six cheques for the payment of £2,000, with intent to defraud.

The case arose out of the transaction in connection with the purchase of the Thorney Hall Estate. Hooley represented it was alleged, that there were no charges or pledges on the property. His defence was that the existing charges on the estate were not ordinary mortgages, as they did not restrict his power to sell.

Mr. Justice Phillimore, in passing sentence, told the jury that he quite agreed with their verdict of guilty. Few men have had a more diversified career than Hooley. In a few years he piled up what was apparently a colossal fortune, and then there came a sudden collapse, followed by bankruptcy proceedings, and all his vast wealth vanished into nothingness.

He dealt in millions. One stupendous scheme followed another, until the public were dazzled at his apparent success, and his name became a synonym for financial sagacity and daring. Peers and baronets and titled ladies crowded his reception rooms to ask for "inside" information as to his companies.

Estates were bought in six counties, there was a town house, there were two country residences, and a palatial suite of rooms in London hotels. There was a splendid yacht, once the property of Lord Londale. Hooley is the son of a lace manufacturer in Nottinghamshire, who from the position of a working lacemaker—what was known as a "twist hand"—built up a small but profitable lacemaking business at Long Eaton, near Nottingham.

It was in turning his father's business into a limited company that the coming financier tasted blood. This opened his eyes to the possibilities for buying concerns cheap and then persuading the public to buy them at a profit.

Hooley soon found that a small profit

## FOR ALDERMAN

To the Electors of the City of Victoria, Ladies and Gentlemen—  
I am a candidate for alderman in the coming municipal election. Should you return me as one of your representatives I will endeavor to merit the confidence placed in me by a faithful discharge of my duties, ever remembering that I represent not a particular district but the whole city and all its citizens.

Yours respectfully,  
GEO. MCANDLESS.

## To the Electors of Victoria

Ladies and Gentlemen—  
At the earnest solicitation of a large number of the electors, I have consented to become a candidate for alderman for the coming year. My chief reason for coming to this decision is that I think it is absolutely necessary in the interest of the city that a fair proportion of the members of the old council—and especially those conversant with the finances of the city—should be members of the new council, if the electors are satisfied with their record; and, as nearly half the members of last year's council have retired, the situation created is a very serious one.

During the past year, I have identified myself with the larger things which have come before the council, the things that count in any city, such as the reorganization of the engineering and waterworks departments; the continuation of the paving and sewerage systems; the building of a new and adequate hospital for the city; the bridging of Seymour Narrows, which will make every man in Victoria better off than he is now, and which also means more work for the workers of the city.

I brought up in the council the question of the employment of aliens on civic work and strongly advocated the employment of our own citizens and British subjects on all public works.

I am strongly in favor of connecting Victoria West and James Bay by rail by a hauled bridge, if feasible.

I have dealt with all subjects on the broad and independent basis of what is best for the city as a whole, my wide experience being the basis of my opinion to every one of you.

I shall appreciate having the help and co-operation of my friends, and trust that my general attitude on all important public questions will give me the confidence and support of every independent voter.

HERBERT CUTHBERT.

vincial town was altogether inadequate as the scene of his expanding ambitions. So he came to London and took up his quarters at the Midland Grand Hotel, where he had a suite of eight rooms. His big schemes began with cycles.

In 1896 Hooley brought out the Dunlop Pneumatic Tyre Company, with a capital of £5,000,000. This was followed by subsidiary companies on the Continent. Altogether, his fifteen cycle companies, floated between 1894 and 1896, were capitalized at £10,055,000.

Besides cycles, Hooley had many other large schemes on hand. He dealt with the Trafford Park estates, near Manchester. He floated the well-known concerns known as "Bovril" and "Schweppes." During these years his rooms at the Midland Grand Hotel were thronged with people who came to offer schemes for his consideration.

According to the Official Receiver's statement, Hooley promoted twenty-six companies, having a total nominal capital of £18,610,000.

His "consideration" for the same—i.e., the price at which they were sold to the companies—was £14,132,442. The purchase money paid by him for appears to be a loss of £4,477,558. This showed an apparent gross profit of £5,928,908, but this by no means represents the actual profit which he made. According to the Official Receiver, his "methods of promotion were such that of this sum he disbursed £4,097,981, while the promotion expenses cost another million." And in the language of this official's report, "the net result of the promotion of the above-mentioned twenty-six companies appears to be a loss of £9,312."

The bankruptcy proceedings in 1898 made a great sensation. The estate was finally wound up in 1903, and unsecured creditors received a dividend of 4s. 4d. in the £.

During the year of Queen Victoria's Diamond Jubilee, Hooley presented a service of gold Communion plate to the Dean and Chapter of St. Paul's. This was, however, returned to his trustee in bankruptcy.

In 1894 he had to face a trial at the Old Bailey for alleged fraud in connection with company promoting. H. J. Lawson was his co-defendant. Hooley had for his advocate the Attorney-General—then Rufus Isaacs, K. C., and he was acquitted after a long trial.

## PRINCE LICHNOWSKY SPEAKS ON MISSION

Kaiser's Ambassador to Great Britain Speaks Happily on Anglo-German Relations

At the recent meeting and dinner of the Royal Society in London Prince Lichnowsky the German ambassador, who was loudly cheered, spoke as follows:

Of all bonds that unite nations none are stronger than intellectual sympathy, and nothing is more apt to promote a real and lasting understanding between nations than the common struggle against darkness, ignorance, and misery. I am happy to be able to state that from time immemorial a close connexion has existed between the intellectual leaders of our two great countries. Carlyle's book on Frederick the Great is a standard work, unrivalled, and of the works of all foreign historians the most popular in Germany. Hume was the predecessor of Kant and Schopenhauer, and I do not believe that in any country in the world are Shakespeare and Byron more fully appreciated or deeply understood than in Germany. I am confident that this close intellectual connexion will in the future as in the past be a powerful help to the efforts of all those who work for the establishment of good understanding and harmony between our two kindred people. I am also thankful for the kind words of welcome that the president has addressed to me, thus adding one more to the numerous tokens of friendly feeling that I have encountered during my short stay in these hospitable realms, and I hope that I may understand that the warmth of sympathy professed to my person who work for the establishment of good understanding and harmony between our two kindred people. I am also thankful for the kind words of welcome that the president has addressed to me, thus adding one more to the numerous tokens of friendly feeling that I have encountered during my short stay in these hospitable realms, and I hope that I may understand that the warmth of sympathy professed to my person

## WAS GOOD ENGINEER BUT NO VIOLINIST

Eugene Ysaie, the Belgian violinist, saw his daughter, Carrie, married a few days ago, says a Brussels dispatch. There was in Hungary a bright young engineer whose soul detested mechanics and all connected with engineering. He adored art, he loved music, and his affection crystallized on the violin. In season and out of season there was an alliance of catgut, horsehair and young engineer, and the result so electrified his friends and his enemies (though perhaps differently) that they advised him to seek the advice of some king of the violin as to where and how to begin a concert tour which should astonish the whole world. There was no doubt in his own mind that he was bursting with talent that only required letting out in the right direction, and so nothing but the top of the tree would suit him as an adviser.

## PUMPED BLOOD INTO BABY.

New Method of Transfusion by Syringe Saves Life.

Dr. Thomas B. Cooley and Dr. J. Walter Vaughan, Detroit, have announced the successful transfusion of blood by a syringe, a new and revolutionary method, which they adopted after ordinary methods failed. The case was that of a new-born babe, whose life was despaired of because of hemorrhage. Transfusion was the only possible means of saving it, and the first attempts failed.

As a last resort, blood was drawn into a glass syringe. Then, by the usual method of using these syringes, it was injected into a vein of the baby. The child revived, and now seems on the road to health.

## ALGEBRA.

The science of algebra is said to have been the invention of Mohammed of Buzand, about A. D. 825. The science was introduced into Spain by the Moors. The first treatise on the subject in any European language is believed to have been that by Luca Pacoli in 1484. The first English algebra was written by Robert Recorde, teacher of mathematics at Cambridge, about 1557. He was the first to use the sign of equality.

## AUSTRALIAN CRUISER IS ON HOME WAYS

Men of Cockatoo Island Yards Will Have Keel of Brisbane Laid Next Month

Active work, in preparation for the construction of the Australian cruiser Brisbane, which is to be built at the Cockatoo Island yards, near Sydney, is being pushed ahead. The appearance of the island has been almost completely altered during the last few months, says the Melbourne Argus. Scaffolding is climbing into the sky at all points, and huge iron sheds are being erected in every direction. These are intended as boiler shops (300 feet in length), and shelters for the various other branches, which will include plumbers and sheet-iron workers, French polishers, joiners, riggers and sail-makers. There are also pattern shop, galvanizing shop (for dealing with unusual lengths of material), brass foundry, turbine machine shop, and mould loft.

By February the keel of the Brisbane will be laid down, and the event, it is hoped, will coincide with the arrival in Australian waters of the cruiser Melbourne, which is now almost ready for commission. A year later the Brisbane will probably be launched. Early in January the keels of the two torpedo-boat destroyers, Derwent and Torrens, will be in position, and the little fighting ships will probably be in the water by August. About 1,400 men will soon be at work, but probably three times that number will eventually be put on.

The whole of the ironworkers' plant in connection with the Brisbane has been installed, and the boats and staging uprights for the cruiser and her little sisters are ready to take the keels, the plates of which are now being worked up. The frame-setting for the destroyers will be completed almost immediately, and that for the cruiser will be taken in hand directly they are ready.

## SOLDIERS CONTEST SHOOTING BRIGANDS

Eighteen Prisoners Led Out by Escort of Two Thousand Soldiers

To make up for its lack of bloodshed during the revolution, Kaifeng, in Honan province, seems now to be developing into a city where life appears to be very cheap, indeed, says the Central China Post. Although it was said that there were to be no more public beheadings of criminals, about one month ago no less than eight brigands were beheaded outside the West gate, with thousands of spectators lining the city walls. Eighteen men were executed inside the southeast corner of the city under conditions far more horrible than beheading. Most of these men were well-dressed and were members of a secret gang organized for loot in Kaifeng city. Detectives had joined the gang, and arranged that at a favorable moment the men should be seized while in conclave. Their trial must have been a brief one, for no one seemed to know of the matter until the prisoners, under escort of two thousand soldiers, were led out to be shot. Instead of shooting the lot in a bunch by company volley the prisoners were made to kneel in a row facing the soldiers, and one by one they were shot by individual soldiers in turn. This led to competition as to the best shot, and where one soldier would fall in turn another would take his place. The details, as told by a foreign eye-witness, were striking in the extreme, and the only commendable thing about the proceedings was that the prisoners were finally made to kneel facing the other way before being shot.

## BETTER HEALTH, WARMTH AND COMFORT

the piano, stuck up the music handed by the engineer and said "Now play." He played, and the corners of Ysaie's mobile mouth dropped lower and lower. He went on playing, and Ysaie at last stopped the performance with a crashing chord.

"I have done badly," said the engineer sadly. "I can play much better than that." Taking courage he began again without the piano, while Ysaie listened.

Go to Wheels and Cogs.  
"My young friend," said the maestro, at last, laying his hand kindly on the young man's arm, "go back to your wheels and cogs. You may make a good engineer, perhaps, but you would certainly make a wretched violinist."

The young man looked so miserable that Ysaie, realizing that Hungary was a long way off, invited him to luncheon. Among these at table was Carrie Ysaie, a handsome and charming girl, with all the good qualities of both attractive parents. She noticed that the poor young man could hardly swallow for disappointment. Her sympathetic heart throbbed with pity and she promptly fell in love with him.

He went back to his own country, and Ysaie, after the manner of Belgian fathers, began to cast his eyes around for a suitable son-in-law. Samples of all kinds were brought up to charming Carrie, but she turned down every one. Finally she said to her father: "I think Hungary must be the most delightful country in the world. I should love to live in Budapest. I think an engineer's profession is the first on the list, and, having lived all my life with a perfect violinist, I would rather marry one who plays so badly I can prevent his playing at all."

Ysaie took the hint, ascertained she was in earnest, and wrote to the disappointed one, who had hidden his violin at the bottom of his wardrobe: "Come back. I am still of the opinion that you would make a shocking violinist, but I believe you would make a first-rate son-in-law."

So he returned, and Carrie and he were married with all the glories that money could supply, and all that art could honor by the presence of its representatives.

"And now," said Ysaie, "I can go to America with a quiet mind."

A loaf of bread dated 1772 has just been presented to the Lincoln museum.

## A CIRCUS ROMANCE.

34 Pounds Weight of the Bridegroom—Bride 130 Pounds.  
A romance of the circus, sideshow reached its climax in St. Louis a few days ago when Jack W. C. Barnett, of Roxboro, N. C., 21 years old, 38 inches high and weighing 34 pounds, got a license to marry Miss Dorothy David Warfield, 19 years old, about 5 feet 8 inches in height and weighing 130 pounds.

Mrs. H. L. Morris, 7 feet 4 inches tall and weighing 124 pounds, was to be matron of honor, the couple announced, and her husband, a man of ordinary size, was selected as the best man.

Barnett had to be lifted upon a high stool when he was called upon to sign the application for a license at the City Hall. With the stool beneath him, he stood with his head about on a level with that of the bride-to-be.

Since Barnett was 16 years old he has traveled with the sideshows of circuses, he told a reporter. In the same circus Miss Warfield, until last April a high school girl of Baltimore, does a "mystery act," she is placed in a cabinet, but when the curtains are pulled back, Barnett explained, she is not there, etc. Then flowers begin growing from a vase, etc.

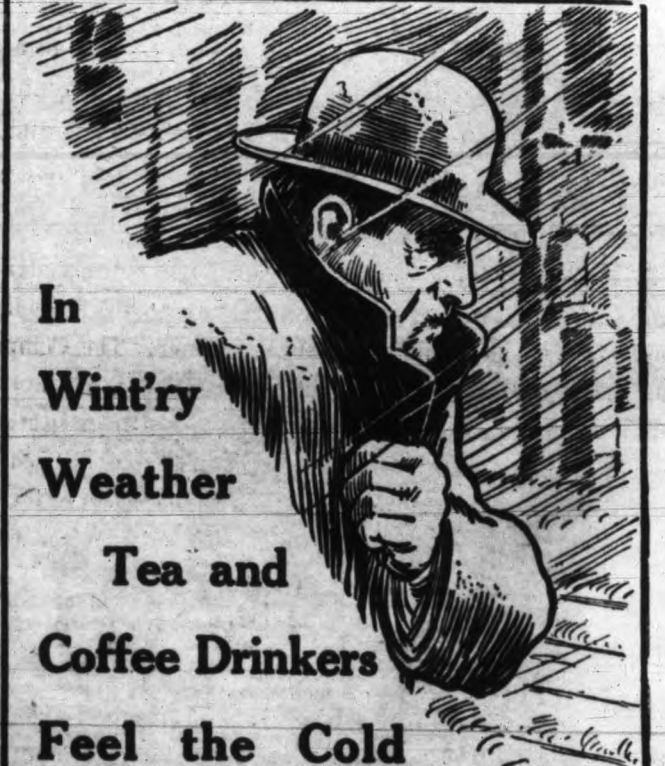

Barnett said the rivalry for Miss Warfield's favor was very keen, several freaks, such as the human ostrich, the ossified man and the wild man, being in the race.

## ONTARIO'S HEAVIEST MAN.

Weighted 540 Pounds and Predicted the Night of His Death.

The funeral took place a few days ago of the largest man in the province of Ontario, Frank Chalmers, of Pelham township. Mr. Chalmers weighed 540 pounds. He, however, was very active for a man of his size, and worked up to the time of his death. A peculiar feature in connection with his death is that he seemed to have a premonition that his days on earth were at an end. Before he retired he remarked: "I believe I will be dead before morning," and he was.

A mile down in the sea the water has a pressure of a ton to every square inch.

UNRETOUCHED  
PHOTOGRAPHS  
OF TWO OF  
THE BEACHES

## Everyone in Victoria Should Own a Lot or Two in Canada's Greatest Pleasure Resort on the West Coast of Vancouver Island, British Columbia

Here's a property that lends itself to the making of a delightful watering place, and here's a strong company—The West Coast Development Co., Ltd.—committed to the development of this property as an up-to-date pleasure resort. That's a combination worth tying to, especially in Western Canada, because Western Canada is absolutely lacking in such places for relaxation and amusement.

There is nothing wanting in the way of natural advantages to make this new resort property an excellent place for resort purposes with all the attendant possibilities of development as a summer settlement and centre for sportsmen. The Company's property extends for nine miles, the entire distance being made up of a series of the finest hard, white sand beaches imaginable. Here the waters from the open Pacific pound in majestically. There are several sulphur springs on the property, and these will be developed and utilized by the Company, both for drinking and bathing purposes. The property back of the beach is, for the most part, level but gradually rising. It is delightfully wooded, and the soil is a rich, black loam with little exception. At one place

the land behind the beach attains a height of from 50 to 75 feet, and this splendid vantage point has been selected as the site of the hotel.

The Company undertakes, as a condition of sale, to carry out, within three years, improvements which will include the erection of a modern hotel, a sanatorium, beach baths of fresh, salt and sulphur water, artificially heated; a board walk, a steel pleasure pier, golf links, tennis courts, etc.

The climate at the point of the West Coast where the Company's property is located, is very desirable for summer resort purposes. The temperature in the summer months averages from 50 to 75 degrees Fahrenheit—neither excessive heat nor excessive cold. There is a wealth of warm sunshine without an excessive rainfall, and there are no such pests as mosquitoes, poisonous flies, etc. The main route of access to the new resort will be by Canadian Northern Railway to Nitinat Lake, and thence by launch and motor bus. The Government's undertaking of a motor road along the West Coast from Victoria will also provide access to the property.

## \$10,000 For the Best Name

Every purchaser of a lot in this resort property is entitled to suggest a name for the resort. These names will be judged by a representative committee of well known people whose names

will be announced later, and upon the conclusion of the sale, the originator of the name selected as the most appropriate will receive a cash payment from the Company of \$10,000.

### Consider What This Property Will Mean to Vancouver Island and to Western Canada as a Whole—Look at the Big Investment Value of It

At the present time the people of Western Canada, for all their wealth, must seek relaxation and amusement outside of Western Canada if they demand a real seaside pleasure place. Thus,

they go to the many United States resorts and leave fortunes with those enterprising centres every season. But, with this great West Coast Resort in operation they will flock to British Columbia.

## THE MODERN TREND OF REAL EDUCATION

UNIVERSITY PROFESSOR  
TELLS OF HIS IDEALS

"Scientific Method is the Thing That Tells," Says Professor of Columbia University

A well-known name in educational circles, both in this continent and in the Old World, is that of George B. Strayer, professor of educational administration at Columbia University, who is in the city for a few days for the purpose of attending the Coast Teachers' Institute Convention. From the classic silence of the university, his books on the technicalities and the science of true education have gone out and their fame has been bruited in almost every land where education is among the things that count.

Interviewed at the Empress hotel last evening, Mr. Strayer was good enough to give the Times man a condensed "verdict" as to the state of the educational world. He looks upon the process of education not in the old way of the pedagogue whose idea was to dispense it in medicinal doses with the aid of the birch, but in the quiet, intelligent way of the most advanced leaders. He does not believe in haphazard methods of education, but in basing the work on a scientific foundation so that each step of the way is carefully graded and logically subsequent upon its predecessor.

"A generation ago," said the professor, "the problems of education were discussed, for the most part in terms of philosophical theory. With the development of the science of psychology and its application to the field of teaching, there was introduced possibly 20 years ago the application of the scientific method to problems of education. In recent years there has been developed in the teaching profession a body of students who are undertaking research work with respect to a very great variety of educational problems. These scientific investigations have for the most part concerned themselves with measuring the efficiency of our educational practice."

"But the practical results of such a system," asked the Times man, "is to measure not simply by the results achieved in habit, knowledge or appreciation upon the part of the children, but also in terms of business administration and with respect to the organization and administration of the more strictly educational aspect of the system."

Economy in Administration. A business man as well as a thinker, Professor Strayer has spent no inconsiderable time in devising the best means in which economy can be practiced in the administration of educational systems.

"Any inquiry concerning the efficiency of schools from the standpoint of business administration," he said, "leads at once to a consideration of the cost of education, and of each particular part or element of the whole. Even where a sufficient amount of money is available, the distribution of this sum among the several items of the budget may operate to curtail or render inefficient some particular aspect of the whole educational system. An efficient administration of schools will locate buildings with reference to growth or changes in population. In the erection of school houses the problem of cost in relation to standards of lighting, heating, ventilation, floor space and seating is a matter of great importance. The standardization and careful inspection of equipment and supplies, school systems have been known to save thousands or even hundreds of thousands of dollars. It is clear that business administration may have much to do with determining the efficiency of schools."

Testing Ability. The old methods of examination have been discarded by Prof. Strayer just as one discards an old coat which is no longer of any use. He was very definitive on the point that examinations or tests should be given only when scales or units of measurement have been derived for each subject. Such refinements in testing have been hitherto extremely rare.

He said: "Tests of the abilities of children in school subjects have heretofore been inadequate. This fact has been due to the prevailing method of

setting tests or examinations. Quite commonly a series of ten or twenty questions has been placed before children, and later credit has been given for each problem upon the basis of calling each answer worth one-tenth or one-twentieth of the whole credit assigned. It is apparent that there is in such a method no adequate comparison possible among the children taking the test. It will never happen that each problem is actually as difficult as each of the others. In most examinations there are questions put that are two or three times as hard as other questions for which equal credit is given.

The remedy. "This difficulty can be met," went on the professor, "by a preliminary test given to a large number of children which would discover the relative difficulty of the problems assigned. This would involve the weighing of the questions given in the examination. If the relative ability of the children is to be discovered it will be necessary also to give an examination somewhat longer or than can be completed by the bright members of the class in the time assigned. If all the members of the class completed all of the problems in the time assigned for the test, there is no possibility of discovering from such an examination the relative merits of individual children."

Professor Strayer will give three lectures at the convention under the following titles: "Types of Classroom Teaching," "Supervision of Instruction," "The Meaning of Education in a Democracy."

The last is one of the distinguished professor's most famous lectures. He has to return to New York as quickly as possible as term opens in the university to-day. On his way to Victoria he has been present at teachers' conventions in Montana, Idaho and Portland, Oregon.

## NEW CHINESE CONSUL REACHES VICTORIA

Mr. and Mrs. Lin Shih Yuen  
Passengers on Montague—  
Has Seen Diplomatic Service

The new Chinese consul at Vancouver, within whose jurisdiction will fall the other cities of British Columbia, Lin Shih Yuen, accompanied by Mrs. Lin, and his secretary, Lin Tse Yuen, arrived yesterday from the Orient by the Canadian Pacific steamer Montague.

The new consul had a brief chat with the Times man, and expressed his pleasure in returning to Canada. He said he left Vancouver about eighteen months ago to return to his native land, having served under the retiring consul, Dr. Kang Yuen Chang, as interpreter and translator. On recall he had been attached to the Wai-wu-pu, and had found in diplomatic affairs a fruitful field. He is a young man, of clear cut statement, and will prove a worthy successor to the capable consul who leaves the Terminal City for San Francisco shortly.

The new consul said he did not care to discuss political matters in view of his position, but remarked that the Six Power loan and other financial negotiations were of a character that the Republican authorities had treated with great delicacy. Some of the most important monetary relations had not been concluded when he left China. President Yuen Shih Kai was working out his policies well, and bringing the country out of chaos following the revolution.

### TO TALK ON INSECT PESTS.

Entomologists Foregather in Victoria on Thursday for Annual Meeting.

The entomologists of British Columbia will foregather at the Botanical Room of the Provincial Parliament buildings on Thursday to discuss the many pests which are deleterious to the horticultural and floricultural life of the province.

It is the occasion of the annual meeting of the British Columbia Entomological Society, and a number of papers will be read on subjects of interest to the science. A noted student of this subject, Dr. Seymour Hadden, will be among the speakers. Fruit Inspector Thomas Cunningham will speak on the proposed quarantine regulations against orchard pests. The assistant inspector of fruit pests, Mr. Layne, will deal with fumigation. Financial statements, reports and the president's address will occupy other portions of the various sessions.

### CROWN ASKED TO INTERVENE.

Representations Made to Attorney-General in Behalf of Robert G. Hebert.

Representations are being made to the attorney-general's department in behalf of Robert G. Hebert, the youth who is awaiting sentence in police court on two charges of forgery and six of obtaining money under false pretences. Hebert appeared in court this morning but was remanded until the outcome of the communication to the government is known.

### CHILD DRUNKARDS.

Remarkable statements concerning drunkenness among Russian school children are made by H. M. Grove, the British Consul, in his report on the trade of the Moscow district. It is admitted, he writes, that inebriety is very rapidly increasing among the school children in Russia in general and in Moscow in particular. The Moscow Town Council made an inquiry into this matter and found that out of 10,000 school children who are addicted to drink it had been ascertained that 50 per cent. learned to drink while still at school. Out of 18,134 school boys in the Moscow Province, from the ages of 8 to 13 years, 12,162, or 67 per cent. drink strong liquors and out of 10,101 girls of the same ages, 4,145, or 41 per cent. also drink.

## SPORTING NEWS

### ROYALS WILL BE AT FULL STRENGTH FOR BIG MATCH WITH VICTORIA

Lehman Will Be Back While Oatman May Play on the Line  
—Bob Genge, New Recruit for Senators, Touted a Phenom—Seat Sale Opened This Morning

"Lehman will be back in the nets for New Westminster for Thursday night's big contest at the local arena," said Manager Patrick this morning, "and if Charlie Tobin is not able to get into the game at right wing, Manager Gardner will send Eddie Oatman up to fill the gap. Geo. Rochon, the new arrival from Fort William, playing point for the Champions."

Genge Touted a Phenom. Victoria's hockey squad was augmented this morning with the signing of Bob Genge, a Port Arthur defense player, who is touted as a phenom. Genge played for Port Arthur in the New Ontario pro. league last winter, and was counted the best defense man in the league. Lester Patrick, in following out his plans to strengthen all departments of the team, will give Genge a thorough tryout, and if he

lives up to press notices, he may figure on the local septette before the end of the season. The locals now have a brace of stars in Ulrich and Genge, while New Westminster and Vancouver are also well fortified.

Rush For Tickets. An unprecedented rush greeted the opening at the Pitt-Rivers Parlors, of the seat plan for Thursday night's game, and another record crowd promises to be on deck to cheer the Senators to another victory. The locals must win to tie the Millionaires for the league leadership, and as they have a game the following week with Vancouver, at the Willows Ice Palace, the locals have a grand chance to take the lead in the P. C. H. A. St. Griffs and Jackie MacDonald may referee. The officials are to be appointed from the Vancouver club.

## MANY NORTHWESTERN CLUBS WILL TRAIN ON HOME GROUNDS

Portland Teams Will Visit California—Season for Reporting  
Opens About Middle of March — Seattle's New  
Twirlers Have the Class

Seattle, Wash., Jan. 6.—President Dugdale and Manager Raymond have the Seattle team so well lined up for the coming season that they are going slow in "falling for" the reports of phenoms. Every mail brings news of players. Tooley, however, likes his squad pretty well as it now looks, so the chances are that there will be little experimentation.

Melkie is figured on as the mainstay of the box. Charlie Fullerton should also be a strong card, especially if he has control, which he lost for a time last season. Pete Schneider and Kid Melvor will be given plenty of work, so it is up to them to show early, or some hustling will have to be done in order to repair the damage.

New Twirlers Look Good. Unless advance dope is misleading, Dugdale has good material in Gipe and Barry. In fact they would not have attracted the attention of Connie Mack if they had not shown more than ordinary promise. Dell also looks so good that Manager Raymond feels quite confident that the team will be strong in the box.

The Tacoma Tigers will train this season at home. Seattle will do likewise, and Victoria is now inclined to adopt the same programme. Vancouver will probably do most of their work at the hot springs, some distance from home, on the line of the C. P. R. Joe Cohn has a liking for Walla Walla.

Portland Goes South. As usual Portland's two squads will gather in California. As the regular season commences April 15, three days earlier than 1911, all teams will probably move up their reporting date making it March 15, instead of March 20 or March 25 as in the past. How rapidly the time is approaching is indicated by the announcement of the plans of the major leagues.

Cy Neighbors is a good foundation for an outfield. So far he is the only one absolutely certain of a job in the outer pastures for the Tacoma Tigers, and McGinnity showed judgment in retaining him.

## WANTS A MATCH WITH CHAMPION

Harry Gatenby, of Toronto,  
Decides to Locate in Capital  
—May Wrestle Geo. Walker

Looking for a match with Geo. Walker or any other 150-pound professional wrestler, Harry Gatenby, formerly of Toronto, arrived in the city this morning, and in future will make his home in the Capital. Gatenby stopped off while in Vancouver, and expects to be able to secure a match with Walker just as soon as arrangements can be made.

A Sturdy Boy. Gatenby is built like a young oak. He is 26 years of age, is 5 feet 3 inches high, has a chest measurement of 42 inches, neck 17 inches, biceps 19 in., triceps 14 1/4 in., forearm 12 1/2 in., wrist 7 1/4 in., thighs 23 1/2 in., calf 14 1/2 in. He holds the welterweight

## "CYCLONE" PLAYED ON HIS NERVE

For the second time in his hockey career, Fred Taylor went into a game against the advice of his physicians, and came through with flying colors. The "Cyclone" has a habit of doing what you don't expect of him, and what's more, he usually gets away with it. In Ottawa four years ago he went into a contest with his right ankle injured in a street foot to protect a friend's honor. In that match he scored the goal which eventually won for the Capital City seven. On Saturday night, after being threatened with an attack of appendicitis and under the care of a physician earlier in the evening, Taylor went on the ice and played one of his spectacular games, although the "Cyclone" was not taking any chances in view of his condition. His skating and stick handling, in fact, all-round playing has become a feature of every match in which he participates. Taylor deserves credit for his pluck in entering the game in view of his condition. The "Cyclone" was in bed the best part of the day, but rather than disappoint the crowd he went on the ice, although his physician advised against him doing so. Taylor had the crowd wild from the start, and he was the idol of the Vancouver fans from start to finish.

GENGE JOINS SQUAD.

Both New Westminster and Victoria teams will make every effort to strengthen up before their next scheduled matches. Manager Jimmy Gardner has a player named George Rochon, who was with Port Arthur last year, on his wish list from the start, and he was the idol of the Vancouver fans from start to finish.

If Genge shows the class expected of him, he will be given a try-out on Thursday night, should Victoria be in arrears.

## Voters' List

## NOTICE

All those considering themselves entitled to a vote at the forthcoming municipal elections are requested to examine the revised Voters' List which can be seen at the Oak Bay Municipal Hall. If they do not find their names on such Voters' List they are advised to read carefully the 1912 amendment to the Municipal Elections Act. If, after doing so, they still believe themselves entitled to vote they must be prepared to support their claims at the meeting of the Court of Revision with proof of their qualifications under the Act.

PROVIDED, where it is sought to remove any name from such list, applicant must be prepared to prove that party whose name is sought to be removed has received at least two days' notice of the intention to apply to have such name removed and of the grounds on which such application is based.

J. S. FLOYD,  
C. M. C.

## To the Electors of the City of Victoria:

Ladies and Gentlemen,—After giving due consideration to the request of a number of the electors, I have consented to stand for alderman in the City Council for the year 1913.

When we consider the responsibilities that will rest on the City Council on account of the very important city works that will have to be carried out, involving heavy expenditure, the same should be managed for the best interests of the city as a whole. Due consideration should be given to the possibilities of, and the position this city will occupy in the very near future.

I therefore ask for the support of my fellow citizens and taxpayers in the coming election.

I am, Ladies and Gentlemen,  
Yours faithfully,

HERBERT W. DAVIES.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

## EMPRESS PARK.

To the Editor.—The utilization of the city property to the rear of the Empress hotel for park purposes has many strong supporters. It is to be hoped that the idea will not be allowed to die a premature death. Now that Mr. Justice Martin has taken the lead and promised financial support, it is necessary that other prominent citizens should join to bring about the realization of a scheme so directly calculated to benefit the city and to commend it in the eyes of strangers and residents alike. Nothing lingers so long in the memory of a visitor to the city as the beauty spots, and it is the same cause that endears a city to a resident. The internal beautification of a city of such beautiful surroundings should not be left to chance. If the mayor and aldermen for reasons of policy hesitate to advance this scheme, the citizens should take it in hand themselves.

Victoria, B. C., Jan. 3, 1913.

## CIVIC ELECTIONS.

To the Editor.—Judging from the tone of your daily correspondence from the city high school staff, whose letters must occupy a great deal of his spare time, I infer that there is being put forth a strong effort to run our civic election along party lines. I notice he ignores almost all questions affecting our civic affairs and dwells entirely on the stand taken by Mr. Morley at provincial elections.

While a good many of us take a decided stand and have strong party views at election times, we do not pack it around in our gullet in our effort to select the best the city can give to manage our municipal business. From many of us the fact that he cut loose from the Conservative machine, and cast in his lot for the time with comrades true will lose him no real friends. He never joined the Liberals, even if he did rub elbows with them. Really I am in hopes that as he studies the party more and gets the old Tory talk out of his eyes he will become an ardent Liberal, as many another thoughtful man will do.

I was a warm supporter of Ex-Mayor Hall, and I believe he always worked for the advancement of our city. So with the present mayor, he no doubt is filled with the best intentions. But the fact is quite apparent even to Mr. Morley's enemies that he stands out clean and manly for all that is best and safest in municipal affairs. He is a type of man we may well be proud of given good and fair support by men who could forget self-aggrandizement or petty jealousy. He can guide the destinies of this fair city far in advance of most of his opponents.

It is a pity that we could not forget our past feelings and judge a man on his merits, especially one whose bright and advanced ideas have been copied and used to such an extent as Mr. Morley's.

This city is growing under some of the most abominable franchises that ever grappled a free people by the throat. Others tell us about it, but Mr. Morley is the only one who seems to see clearly where the whole people come in.

Give him the support he deserves and our fair city will grow and prosper not for a few to have a fat time, but for all. Use such men as he is when you get the chance.

G. E. MILLOY.

## INSINCERITY AND INCONSISTENCY.

To the Editor.—Hundreds of Japs and Chinese are being introduced into the coal mines of Vancouver Island, to mine coal in direct competition with the white miners of this province. These Asiatics have been induced to return and act as strikebreakers under greatly improved conditions, and thereby be used as a wedge against the white miners of British Columbia, assisted by almost one hundred and fifty policemen, whose daily duties are intimidating, marches through the streets, and then a grand parade which the miners call "Powder's Cavalry."

Then bravely does the self-ordained dictator of British Columbia stand up and bear the people's burden of the one thousand to fifteen hundred dollars a day special police expenses, which in the interest of justice and the consumer should be expended in a way of a sincere investigation costing less than one-quarter of the special police expenditure at the present time, and at the same time give this wretched labor commission a chance to prove its usefulness. Imagine the government having already expended about \$75,000, and sand dollars to further the introduction of Japs and Chinese into the coal mines of this province instead of fighting tooth and nail, as of old, when it was a political question that rang from

one end of the province to the other and rebounded in the confidence placed in the government. If this inconsistency of the present administration is practically established in this home-reared Asiatic question, and is absolutely ignored from a British Columbian standpoint, what better right have we British Columbians than to bury party politics and take up from the standpoint of justice and in the interest of the people, who have had their confidence and money abused and the power of authority used to further the introduction of Asiatics in developing the natural resources of the province in direct opposition to the expressed wishes of the people?

Was all the energy and lung power of the present government stumped or platform speakers spent in that great saying "British Columbia shall be a white man's province," or was the Asiatic question just a convenient political house used to sweep the Dominion broom, because it was run by a different political party? If the McBride government was sincere on the Asiatic question, they have surely ignored it in this province (at Cumberland) up to the present time.

Did we not read in the government press some weeks ago of a departmental explanation of the impossibility of the department to take up this matter because of a technicality in the miners not defining their grievances? But the sending of a petition to both Sir Richard McBride and the chairman of the labor commission by the miners previous to the meeting of this tribunal on December 28, 1912, makes it look to me as if the miners have done the very last act possible, except move the mines to Victoria and take up the exciting chase of following this commission from one end of the province to the other.

It justifies the belief that the Attorney-General has taken upon himself a further burden of judging a case before it comes on trial, thereby correcting a mistaken idea of so many English-speaking people that, if they have a grievance, British justice provides a place to give it a hearing.

About this labor tribunal? Is its usefulness confined to having their pleasures in the press, the daily announcement of its meetings, the settling of dates in places where there are no strikes, or is it a convenient instrument to take the responsibility from the government and make this commission shoulder it, and then the government to politically control it and make useless by tying its hands?

If this is not so, why has the government laid itself open to this impression by refusing months ago the investigation that conditions justified and that the members stated only technicalities stood in the way of, then the action of the commission apparently overlooking and ignoring, and at the meeting on December 28, that so many of us expected so much from, only to hear of this commission being taken to the other end of the province, where its usefulness will be very limited, especially considering the urgency that conditions at Cumberland demand and about those two commissioners, who after becoming familiar with the reasonable requests of the miners' petition, publicly announced that in their opinion this commission should immediately proceed to Cumberland?

Why did they not insist on a sitting in this strike zone? Does not their action suggest the workings of a well-oiled political machine that curbs the individuality of the members, and makes them go to school in their second childhood, by the political machine big stick in the hands of hand-tied politicians?

PERCY K. WINCH.

## CAN THESE THINGS BE?

To the Editor.—I promised to deal further with the Voters' League, and will do so now. This is a voluntary organization formed originally for the promotion of moral reform and civility. It was that for a time, but recently it has become a Morley machine, and little else, as I shall show. Just now Mr. John Weston is its president, while its dominant spirits are Jas. McEwan, W. H. Parsons, H. W. Davies and some others, with a membership of probably thirty or forty. All. Not all who attend its meetings have signed its pledge-card or vote at its dictation.

In their private capacity the individual members of this organization are good citizens, but what might be termed the collective conscience of the body, as manifested in its works, is something which might very well excite the admiration of the gods, I never attended one of these meetings without being reminded of a striking expression used by one of the characters in the novel "David Harum": "Some people are so narrow in their views that fifteen of them could sit in one buggy-seat without being crowded."

As an example of how this moral reform organization works, let me tell a little story just here. One night last summer, while the entire household of Mayor Beckwith was wrapped in slumber there came a violent ring of his telephone. His worship jumped out of bed and ran down stairs, without waiting to don his official robe of state, or those of any other kind. A voice came to him over the telephone speaking in a strong Scottish accent. It was the Sir Oracle of the Voters' League, which body was just then acting as a vigilance committee, and it requested the mayor to come to the city hall at once and make out a warrant authorizing a raid upon the house of Estella Carroll. The mayor looked at the clock, and saw that it was just ten minutes to one, and it was Sunday morning. Hastily he reasoned with himself. He had no blank forms for such a warrant, and no law book from which to copy one. He doubted his ability to make up one, out of his own head, that the lawyers would not pick flaws in. He doubted the legality of any such document dated on Sunday, but as he was so narrow in his views, he doubted the right, or otherwise, of the mayor to issue such a document. In fact he doubted the wisdom of the whole crazy business. He tried to reason with the voice, pointing out some of these objections, but as he was so narrow in his views, he was refused to be a party to any such "fool" proposition, and went back to bed.

That week the News came out in a double headed editorial declaring that a new restricted district had been

established in the city, that this could have been done only with the knowledge and sanction of the mayor and police commissioners, and it ended with a pious homily as to what "we" told the electors regarding the price those behind Mayor Beckwith at the last election would demand and get.

This tissue of bare-faced falsehoods, based on the incident narrated above, has never been withdrawn, nor has any apology been offered for it. I have often wondered whether the excessive zeal displayed by certain members of this vigilance committee during the past year was prompted more by the desire to improve the moral condition of the city than to provide campaign material against Mr. Beckwith in the next election.

Not very long ago a member of the Voters' League told a friend of the writer, very excitedly, that all the honest voters' vote would go solid against Beckwith this year, on account of his having cancelled a number of liquor licenses. He was told that for that reason the Voters' League people should support Beckwith. "Yes, I know, but, well—Beckwith had no right to run against Morley last year," was his hesitating reply. In other words, Mr. Morley is the only man who has any right to run for mayor, according to Voters' League ideas, and all others who presume to oppose him will be opposed by that august body.

Another strong canvass these good people are now making against Mr. Beckwith is that at his recent banquet given to the aldermen and heads of departments there was some light California wine on the table. This fact is being magnified into "champagne flowing like water," followed by "wild orgies" and all the rest of it, as the story is being whispered around by these deeply shocked people. Here is a fair specimen of the men that attended Mr. Beckwith's banquet: William Marchant, J. G. Brown, Rev. W. Leslie Clay, City Clerk Dowler, Aldermen Dillworth, Baker and Beard. Perhaps it might be well for the church to which these men belong to appoint committees to investigate the part they took in this wild bacchanalian revel.

I have known Mr. Beckwith for more than thirty years, and I have always found him to be a fairly respectable sort of a man during all that time down to the night of that banquet, but no one can tell what a day may bring forth, so he might as well be investigated with the rest.

I do not think much of the "tu quoque" argument, but the other side of the case might as well be stated here. An alderman tells me I can use his name to prove that at Mr. Morley's last banquet, given to the aldermen in a cheap restaurant downtown, there was something stronger than California wine, stronger even than champagne on the table, and partaken of freely.

Moral reformers who will condemn severely an action in an opponent while they fail to see anything wrong in the same action when done by the man they uphold and defend, have only themselves to blame. If people regard them as their collective capacity as a sort of break aggregation, whose support should, and usually does, injure more than it helps a candidate.

The Voters' League people like to give public functions to which they invite Y. M. C. A., W. C. T. U., Christian Endeavor and prominent church officials. These make splendid decoy ducks, as they give a prestige to the organization which its members use privately to pose off in their secret canvasses. In fact this body is full of expedients such as the poet Burns characterizes as

"Their jugglin' hocus-pocus arts.  
To cheat the crowd."

I do not believe that this body, individually or collectively, possesses the breadth of vision, the grasp of public affairs or the instincts of leadership which would justify us in allowing it to become the dominant factor in the government of our city.

It lost its usefulness when it became a sort of "Thumb-Up Society" for Mr. Morley.

F. ANDREWS.

## STOMACH GONE BAD

## SOUR, GASSY, UPSET?

When "Pape's Diapepsin" Gets in Stomach All Indigestion Goes

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food—no flatulency, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain remedy in the whole world and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know now it is needless to have a bad stomach.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Diapepsin belongs in your home anyway. It should be kept handy, should one of the family eat something which doesn't agree with them or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night it is there to give the quickest, surest relief known.

## HUDSON'S BAY COMPANY

SOLE AGENTS FOR BRITISH COLUMBIA

reported to have been producing much gold lately. For August the extraordinary return of 1,000 ounces of gold was secured from 120 tons treated. J. McLeish's Woodlark King claim produced this notable output.

It is hardly possible, added Judge Murray, that return of this kind would continue, and as the lowest depth reached at the mine was only 70 feet, its future was problematical. It might prove one of the richest known, or might pinch out at any moment. A representative of the Mount Morgan Company was examining the claim,

and several others. If the company took over the claim the island was likely to be developed from a gold-producing point of view. So far the obstacles had been want of capital.

The rope-soled slippers, with cloth uppers, known as Spanish alternatives and worn by practically all the European and colored laborers in the canal zone, are imported all the way from Spain in such quantities that they can be retailed at the low price of 20 cents a pair. The European laborer wears them twelve months in the year on the

Island, and over 1,000,000 pairs are sold annually by the commissary. Alpargatas are durable and have been adopted by the Italian bathers as the most convenient form of beach shoe.

## NEWS OF PROVINCIAL TOWNS

### NELSON

Substantial growth is customs and inland revenue collections at the port of Nelson and a gain in the value of building permits issued which is without parallel in the history of the city are shown by figures for the year just closed compared with those of 1911.

Building permits issued during the year totalled \$273,865, a gain of 60 per cent. over 1911, when the total was \$166,700.

There has been a greater than three-fold growth since 1908, according to the totals for the past five years, which are: 1908 \$88,825; 1909 \$111,487; 1910 \$163,430; 1911 \$166,700; 1912 \$273,865.

The sub-totals for various classes of building in Nelson in 1912 are: Business blocks, \$118,500; warehouses, \$26,000; churches, \$27,000; fire hall, \$19,000; garage, \$1,000; residences, \$83,365.

Building permits issued in December were: Improvements to Madden house, \$1,000; additions to Green block, \$2,000; A. Desrochers, residence, Richards street, \$400.

Customs collections at the port of Nelson in 1912 reached the sum of \$159,672.16, a gain of nearly 12 per cent. over 1911 and an increase of 48 per cent. over 1910. When the total was \$105,272. Collections have shown a very large gain at Nelson, the sub-totals in the surrounding district which are included in this port having shown a falling off.

Inland revenue collections for the past year in Nelson reached the figure of \$23,092.81, compared with \$38,684.80 in 1911 and \$7,092.81 in 1910, an increase of 12 per cent. in two years. For December the collections were \$2,355.91 made up as follows: Cigars, \$96.50; raw leaf, \$379.26; malt, \$300; spirits, \$2,589.25.

### STEVESTON

Railroad developments of far-reaching importance to Steveston are hinted at as the result of operations in the townsite here and along the waterfront. Within the week, outside parties have taken options at record prices upon all property procurable in the Steveston townsite, and it is understood that measures are being resorted to which will place within the power of a railroad company much mentioned in connection with Lulu Island a large portion of the waterfrontage at Steveston.

Private parties who have attempted to secure waterfrontage on the South Arm state that it is practically impossible to buy it. At Steveston the price of waterfrontage has advanced, and almost prohibitive prices are asked of private parties. Further up the river prices have also reached high-water mark.

The announcement of the Pretty scheme of the docks and wharves on the west end of Lulu Island last fall and the subsequent decision of the C. N. R. to build the Lulu Island line are taken by local people to be only forerunners of an extensive development on the southwestern corner of Lulu Island, the strategic centre of which is the Steveston townsite.

Already there has been a tremendous increase in values at the cannery town and in the adjoining territory. The Gulf of Georgia cannery, the westernmost of the salmon establishments, has refused an offer of \$60,000 for its property, purchased only a few years ago for a third of that sum. The price of building lots has also greatly increased.

Warm contests for councillor seats in three Richmond wards are anticipated as the result of developments of the past few days. Councillor Gray, who represents the Woodward's district, is not expected to have any opposition. Likewise Councillor Miller, of Sea Island, but their brothers on the council will not be so fortunate.

In Steveston, Councillor Pentimian's path of roses will be disturbed by two men, J. D. O'Neill and Thomas Bownis, both popular business men of the ward, will oppose him, and the resultant three-cornered fight is expected to be the most interesting in the whole municipality.

S. Mitchell, a farmer of Cambie, will contest the Ward Five seat with Thomas Foster, who has already received endorsement of the Ward Five Ratepayers' Association. Here also the fight is expected to be a close one, for although Mr. Mitchell was turned down by the Ratepayers' Association in favor of the nurseryman, he has a big following in the ward, of which he is an old-time resident.

It is currently understood that Frank Dunsmuir will run against Councillor McCullum.

"Do you think only of me?" murmured the bride. "Tell me that you think only of me."

"It's this way," explained the groom, gently. "Now and then I have to think of the furnace, my dear."—Louisville Courier-Journal.

### HOPE

Hope residents are urging that the C. N. R. operate the Port Mann to Hope section.

W. C. Dignan has begun work on the framing of P. A. Patten's house on Fraser street. He has a car of material and stores on the Canadian Northern tracks. As soon as it reaches Hope he will begin the erection of a dwelling house ordered by C. G. Raymont on the latter's lots in the Turner addition, lying east of I. B. Preston's property, near the bridge.

### PRINCE RUPERT

Minor McFadden, of South Wellington, was swept to death in the roaring depths of the Hoesthal Falls near Port Essington the day before Christmas.

With two companions he had been trying to cross the river in a canoe. The frail craft was caught in the powerful grip of the current. It was forced toward the brink of the cataract. Not far distant was a rock and toward this the boys struggled to direct the canoe. McFadden was in the stern. The other two, whose names have not yet been learned, were in the bow. They managed to seize a large rock and crawled out of the pitching and all but capsized canoe. McFadden tried desperately to follow them and the survivors were only too eager to help, but the force of the current was too great. The canoe was wrenched away and within a few seconds, with its solitary occupant, it was shooting toward the brink, three hundred feet below, which there stretched plunging and foaming waters and jagged rocks.

Close to the crests a cable spanned the river. Only a day or so before it had been tightened, and was, therefore, a little higher than usual. McFadden tried to grasp it. The height was too great. Those watching saw him leap up in the canoe, and endeavor to grasp the line that might have meant his salvation. But he could not do it. Next moment canoe and man had vanished.

### NANAIMO

Silver Leaf Temple No. 1, Pythian Sisters of Nanaimo have installed new officers as follows: Past Chief, Mrs. S. Perry; Most Excellent Chief, Mrs. N. Dillworth; Excellent Senior, Mrs. M. Quaglin; Excellent Junior, Mrs. B. Kay; Manager, Mrs. S. Rivers; Mistress of Records and Correspondence, Mrs. Annie Bell; Mistress of Finance, Mrs. Irene Aitken; Protector of Temple, Mrs. M. Thompson; Guard of Outer Temple, Mrs. A. Price; Trustees, Mrs. C. Ferguson, Mrs. G. Devlin and Mrs. E. Gillard.

Arrangements have been made with the Session of St. Andrew's Church and the Home Mission Committee of the Presbytery for an assistant to the minister, Rev. J. R. Robertson. For some time it has been recognized that the work of the Presbyterian church in Nanaimo and surrounding district is too large for any one man to successfully undertake.

Mr. A. M. Grant, of Westminster Hall, Vancouver, has been appointed.

### MAKE THIS TEST

How to Tell if Your Hair is Diseased.

Even if you have a luxuriant head of hair, you may want to know whether it is in a healthy condition or not. 98% of the people need a hair tonic. Pull a hair out of your head. If the bulb at the end of the root is white and shrunken, it proves that the hair is diseased and requires prompt attention. If the bulb is pink and full, the hair is healthy.

We want everyone whose hair requires treatment to try Rexall "33" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head grow hair and overcome baldness.

It is because of what Rexall "33" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and \$1.00. Sold only at our stores. The Rexall Store, D. E. Campbell, corner Douglas and Fort streets.

### THE GOLD LIONS IN PEKIN.

Fronting the Imperial palace at Pekin are two beautifully-carved lions of enormous size, which, if we are to believe the legends, are of solid gold and have been there since time immemorial. When the combined armies of Russia and France attacked Pekin in 1860 the Chinese painted these statues gray in order to make the Europeans believe that they were of bronze and, therefore, to insure against their being melted. Later, during the Japanese war, these lions disappeared for a time, but at the conclusion of peace they reappeared in their original position. The value of these relics is said to be incalculable, and they are in native eyes a symbol of the unity of the empire.

### PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Township of Esquimalt that I require the presence of the said electors at my office, Lamson Street School grounds, on Monday, the 12th day of January, 1913, at twelve o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Councillors and Ward Councillors, and to elect two School Trustees.

The mode of nomination of candidates shall be as follows: The candidates shall be nominated in writing, the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of this notice and two p.m. of the day of the nomination, the said writing shall be in form to be furnished by the Returning Officer, and shall state the names, residence and occupation or description of each person proposed, in such manner as sufficiently to identify each candidate; and in the event of a poll being necessary such poll will be opened on Saturday, the 18th day of January, 1913, at the Soldiers' and Sailors' Home, Admirals' road, of which every person is hereby required to take notice and govern himself accordingly.

The qualifications by law required to be possessed by the candidates for the offices mentioned above are as follows: Qualifications for Mayor.—After the first municipal election the qualifications for a Councillor shall be his being a male British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the Municipality of the assessed value, on the last municipal or provincial assessment roll, of five hundred dollars or more over and above any registered judgment or charge; or being a home-tenant, leasee from the Crown, or pre-emptor who has resided within the Municipality for the space of one year or more, immediately preceding the nomination, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge; or being a home-tenant, leasee from the Crown, or pre-emptor who has resided within the Municipality for the space of one year or more, immediately preceding the nomination, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge; and being otherwise duly qualified as a municipal voter.

Qualifications for School Trustees.—In every municipal school district, any person being a householder in the school district, and being a British subject of the full age of twenty-one years, and otherwise qualified by this Act to vote at a school election, shall be eligible to be elected or to serve as a school trustee in such municipal district. Given under my hand at Esquimalt this 31st day of December 1912.

THOMAS SHEPHERD.

Returning Officer.

### BIRTHDAY CALENDAR

#### IF THIS IS YOUR BIRTHDAY

You are fortunate. You will conquer difficulties, and your purpose will prevail among your associates. A new and dear friendship will be formed.

Those born to-day will be strong and energetic and sure to have their own way. It is the duty of guardians to teach these children kindness and consideration, so that they will never choose the ways of cruelty and selfishness.

#### TO-DAY IN CANADIAN HISTORY

Upon this day, in the year 1548, Edward VI. granted a pension of £6 13-4 annually for life to Sebastian Cabot, who is believed to have been with his father, John Cabot, when, in 1497, he discovered the mainland of America, and planted the flag of England on the coast. Sebastian had spent many years in the service of Spain, and on hearing that he was in England the Emperor Charles V. immediately demanded that he should be sent back to him. Cabot refused to go, and, as he was an English subject (he is said to have been born at Bristol) the Privy Council decided that "no reason or equity would that he should be forced or compelled to go against his will." The pension was given in consideration "of good and acceptable service done and to be done" by Cabot but it is not quite clear what his duties were. In fact, scarcely any point in the story of Sebastian Cabot is clear, but, whether or not he accomplished all that some of his biographers have claimed for him, it is certain that he had acquired a great reputation as a seaman, and was in high favor with his young sovereign, whose interest in naval affairs amounted to "a sort of passion."

#### BIRTHDAY CONGRATULATIONS

TO

January 5.  
Cumming, Melville, B. S. A. (Truro, N. S.); born, Stellarton, N. S., 1876; first principal of Nova Scotia agricultural college and secretary of agriculture for the province.

Doble, Arthur Richard (Montreal); born, London, Eng., 1872; secretary to general manager of Bank of Montreal, yachtsman and poet.

#### WAYER ACT.

Notice of Application for the Approval of Works.

TAKE NOTICE that The Portland Cement Construction Company, Limited, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from China Creek, which the applicant is, by Water Permits No. 5 and 13, authorized to take, store, and use for domestic and industrial purposes, for use on lots 73, 74, 75 and 327, Malahat District.

The plans and particulars required by subsection (1) of section 70 of the "Water Act" as amended have been filed with the Comptroller of Water Rights at Victoria and with the Water Recorder at Victoria, B. C.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., this 7th day of December, 1912.

Dated at Victoria, B. C., 2nd day of December, 1912.

RODWELL & LAWSON,  
Agents of the Applicant.

#### NOTICE.

Public notice is hereby given that the Victoria Harbor Railway Company have deposited in the Land Registry Office at the City of Victoria, in the Province of British Columbia, the plan, profile and book reference of that portion of the main line of their railway between Stations 100 and 112-1-2-3-4 and Station 100 at Seaside Water, including loops between Stations 100 and 112-1-2-3-4 and connection with Esquimalt and Nanaimo Railway from Station 99-1-2 to Station 10-1-2-3-4 Rock Bay, All in the City of Victoria.

Dated Victoria, B. C., 2nd day of December, 1912.

# CANADA'S GREATEST PLEASURE RESORT

In Saturday afternoon's mail the following invitation  
was sent to a number of well known men of Victoria  
—and neighboring cities—

Dear Sir,—

Owing to certain unwarranted attacks on our project of a Summer Resort on the West Coast of this Island we have decided to invite some of Victoria's prominent men to visit this property as our guests as soon as it can be arranged.

We do this realizing that the present is probably the worst time of year and that our property must necessarily appear in the least advantageous light.

Will you accept an invitation to join this party leaving Victoria as soon as we can arrange the trip? The excursion would occupy from two to three days, allowing the party to thoroughly examine the property. You would be given ample notification of the date.

Trusting to receive your acceptance, we are,

Yours very truly,

MONK, MONTEITH & CO., LTD.

# The Alvensleben Daily Gazette

Monday Evening, January 6, 1913

Owing to the rapidly increasing business of the Victoria Branch of Alvo von Alvensleben, Limited, it has become necessary to enlarge along broader lines, that we may properly handle in detail the demands made upon us by our large clientele.

The German-Canadian Trust Company, Limited, has been chartered under the laws of the Province of British Columbia with an authorized capital of \$1,000,000, and the Victoria Office of the Alvo von Alvensleben, Limited, has been taken over by the Trust Company.

Mr. Alvo von Alvensleben, president, and a large stockholder of Alvensleben, Limited, is president of the new Company with the other officers and board of directors filled by some of the leading local financial men.

It will be the duty of each and every member of our staff to handle the business of our clients in the future as it has been in the past in a way to give them entire satisfaction.

In due time a Trust, Insurance, Rental and Loan Departments will be established so that every detail pertaining to the handling of real estate may be properly looked after.

# PRICES IRREGULAR IN STOCK MARKET

Railroads Not Much Affected With Minnesota Case Postponed

(By F. W. Stevenson & Co.)  
New York, Jan. 6.—Some nervousness was displayed in the stock market throughout the session, causing irregularity in many of the list, but on the whole prices acted well in face of all the selling and the decisions of the Supreme Court. The "Money Trust" investigation was resumed, which certainly did not aid such industrialists as American Beet Sugar, whilst the railroads were not so much affected, the decision on the Minnesota case being postponed.
